Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

The City of Duluth expects to receive about \$3 million in funds from the U.S. Department of Housing and Urban Development (HUD). HUD provides three types of funds: Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), and Emergency Solutions Grant (ESG). CDBG funds support community development projects including affordable housing, public services, public facilities, and economic development. HOME funds support programs that create affordable housing for low-income households. ESG funds support projects that offer basic needs and housing stabilization services to community members experiencing or at risk of experiencing homelessness. Local organizations apply to the Community Development Program requesting these HUD funds for their projects.

The Community Development Committee reviews the applications and recommends funding amounts for the Community Development Program. The CD Committee holds public input sessions and comment periods regarding the funding recommendations and then make its final funding recommendations to the City Council.

At the January 10, 2022 City Council meeting, Resolution 22-0040 approved the Community Development Committee funding recommendations based on estimated allocations. When HUD officially notified the city of the FY 2022 funding amounts on May 13, 2022, this resulted in a decrease of \$160,584 in CDBG funds, an increase of \$5,461 in HOME funds, and a decrease of \$3,002 in ESG funds. To address these funding changes, the following CDBG programs were reduced: Duluth Property Rehab by \$103,485.72; Community Action Free Tax site by \$1000; One Roof's Tenant Landlord Connection by \$1000; Family Freedom Center NYS JET program by \$1000; RAD Peer Based Recovery Support Program by \$1088; Center City Family Supportive Housing Corporation by \$20,000, and admin by \$33,010.28. The HOME program for One Roof's Community Land Trust New Construction was increased by \$5,461. The following ESG programs were reduced Safe Haven Domestic Violence Shelter by \$1000; Bob Tavani House for Medical Respite by \$802, Rapid Rehousing and Prevention Program by \$974 and city administration by \$226. The City's Community Participation Plan states that if a funding contingency plan is approved as part of the funding resolution and is in the public notice, then the reallocation of funds does not constitute a Substantial Amendment and does not require an additional public hearing. The CD Committee reviewed and approved the funding reallocation at their July 12, 2022 meeting and the funding reallocation will be presented to City Council on September 12, 2022. A 30 day public comment period for the funding allocation began on August 22, 2022. The Action Plan will not be submitted until the Public Comment period has expired. The CD Committee stated if there was

substantial public comment, then they would review the funding allocations at a future meeting.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

Themes were developed from community input.

Theme #1: Ensure all residents have access to necessary transportation and utility infrastructure.

Priorities include:

- Improve streets and sidewalks, and address snow clearing, in ways that do not increase cost burdens on low-income property owners. Support multimodal transportation by improving access to transit, and adding transit amenities such as bus shelters and street lights. Invest in pedestrian and bicycle infrastructure, and implement ADA improvements in targeted areas. Provide reasonable access to clean energy and improve energy efficiency to relieve energy burdens.

Theme #2: Increase the supply of affordable, quality housing.

Priorities include:

- Provide housing cost assistance to alleviate cost burdens. Increase the number of housing units in locations that are convenient for access to jobs and food. Provide a variety of unit types at all levels of affordability, aiming for mixed-income neighborhoods. Housing types to focus on include supportive housing, accessible housing, units for individuals, and senior housing. Improve quality and safety of housing, including enforcement of existing codes and rehab of older structures.

Theme #3: Support thriving neighborhoods by addressing neighborhood issues and improving aesthetics.

Priorities include:

- Identify solutions to homes that are condemned or vacant, in order to address neighborhood blight. Ensure neighborhoods have key amenities such as quality lighting, street trees, and public

art. Collaborate with the police department, neighborhood groups, and others to ensure neighborhood safety. Increase waste receptacles and sharps containers in parks and public facilities.

Theme #4: Build employment skills and opportunities.

Priorities include:

- Provide job training for low- and moderate-income individuals. Build the capacity of contractors in order to provide skilled jobs and meet housing development needs .Use economic development strategies to increase living wage jobs.

Theme #5: Support health and well-being.

Priorities include:

- Ensure health care access. Provide connections to recreation activities that promote physical and mental well-being. Eliminate food deserts and expand food access. Provide chemical dependency and mental health treatment, with a particular need for residential treatment.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Each program that is funded with CDBG, HOME and ESG funding is monitored annually to make sure that the number of people who were going to be served for a specific need were met. If not, then that program is evaluated to determine if the need for that the program is still a priority or if that need is being met elsewhere due to other new funding sources or if the community dynamics have changed and the demand for a specific need has decreased. Every year, there are public input sessions to gather input on community needs to evaluate if a need should be a goal for this plan. A description of the goals and a description of the public input process is provided in the annual action plan, which is submitted to HUD for review and approval.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

Summary from citizen participation section of plan.

The citizen participation process is outlined in the Citizen Participation Plan and was integral in goal-setting and developing strategies in the plan. The City used a combination of public hearing, newspaper outreach, social media, and an online survey to identify needs in Duluth. The Citizen Participation Plan lists out the public process that the Planning & Development Division utilizes throughout the year. The plan includes the process for the development of the Action Plan. The Citizen Participation Plan can be found online at: <https://duluthmn.gov/planning-development>

As part of the community outreach process, the City Planning & Development Division staff used multiple outreach strategies to engage community members and the organizations that serve our community. Division staff consulted with nonprofit and service providers who work on issues of healthcare, housing, homelessness, and education, and other community issues.

The Planning & Development Division published the annual Housing Indicator Report, which is an analysis of the housing market in Duluth.

The Community Development Committee reviews the draft Action Plans and funding recommendations at public meetings. These documents are made available for 30-day public comment period from November 3, 2021 to December 3, 2021. All public comment received during the comment periods and at the meeting was presented to the CD Committee and is referenced in the minutes. The CD Committee held their public input session on the draft Action Plan recommendations on November 16, 2021. The CD Committee approved the draft Action Plan with the condition that if the funding allocation was greater than 1%, then they would like to review final award amounts that would be provided to agencies on December 7, 2021. City Council approved the CD's recommendations at their January 10, 2022 meeting. On May 13, 2022, the City received the final allocation amounts from HUD; the CDBG and ESG amounts were greater than 1%, therefore the CD Committee reviewed and approved the funding changes at their July 12, 2022 meeting and City Council will review the recommendation at their September 12, 2022 meeting. As per the Citizen Participation Plan, no public hearing is required because funding allocations from HUD do not meet the definition of a substantial amendment.

From the Citizen Participation Plan:

The CD Committee, with the assistance of Staff, shall adopt a contingency plan if the federal budget is not yet complete when the funding recommendations are finalized. The contingency plan shall provide for modifications to the annual funding plan if the federal grant award deviates from projections. The contingency plan shall list projects in order of funding priority. The plan shall indicate which projects shall be considered backup projects that shall receive funding only if the actual HUD funding amount exceeds the Division Manager's estimate, and which lower priority projects shall be eliminated or reduced if the actual HUD funding amount is lower than the Division Manager's estimate. The contingency plan, if implemented based on the federal grant award, shall not constitute a Substantial

Amendment, and shall not require a separate, additional public hearing. The modifications to the annual funding plan, if implemented, shall be adopted by an updated City Council resolution.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

All of the comments received during the public comment period and at the Community Development Committee meetings are referenced in the meeting summary from the public hearings.

6. Summary of comments or views not accepted and the reasons for not accepting them

The comments were related to funding requests, which will be considered.

7. Summary

The 2022 Annual Action Plan, is the third of five annual plans of the 2020-2024 Consolidated Plan and it outlines how the federal Community Development resources will be allocated in FY 2022. Each year after that an Annual Plan will be completed to communicate how these funds will be allocated to meet the objectives identified in the Consolidated Plan.

The Annual Action Plans will also include a section that evaluates the community's performance towards meeting the objectives outlined in the Consolidated Plan, meaning how well we are achieving progress towards the priority needs of the City of Duluth.

AP-10 Consultation – 91.100, 91.200(b), 91.215(I)

1. Introduction

The City of Duluth is dedicated to developing an annual action plan that is effective in meeting the needs of low income & moderate income people within the city.

An advisory group of community volunteers assists with reviewing community development strategies by providing direct input into the planning and prioritization process. That group is the Community Development Committee (CD Committee). The CD Committee is made up of nine communitywide representatives. The CD Committee is advisory to the City Administration and the City Council.

The participation process for the Community Development Program is detailed in the City of Duluth Citizen Participation Plan, 2020 publication. In general terms, the process consists of two tiers. The CD Committee helps to provide community perspectives on the Community Development Program and oversee the funding process and holds a public hearing on the funding recommendations.

The Planning and Development Division, as the lead entity, strives to involve many partners in addressing community development needs and issues. There are many other participants involved with housing and community development issues and programs in Duluth. As the lead agency, the Division strives to achieve close cooperation among these other entities.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I))

The Planning and Development Division works closely with the Housing and Redevelopment Authority of Duluth (Duluth HRA) which is the local public housing administrator for Duluth. The City participates in a group called the Affordable Housing Coalition, which is made up of numerous agencies in Duluth that provide housing and homeless services and programs to those in need. This group meets regularly to discuss issues and gaps in service, as well as, works to develop strategies to assist those in need of housing assistance and other needs. This group is comprised of City and County officials, as well as housing agencies: Duluth HRA, One Roof Community Housing and Ecolibrium3, as well as supportive housing providers: Salvation Army, Center City Housing, Loaves and Fishes, Life House, Lutheran Social Services, MACV; and homeless shelters: CHUM and Safe Haven, and service providers such as Human Development Center, Damiano, American Indian Community Housing Organization, Community Action Duluth. City staff attends these meetings with the St. Louis County Public Health and Human Services staff.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City of Duluth is located in the St. Louis County Continuum of Care (COC). The City of Duluth has a very interactive role with the COC, in reviewing the community needs for the whole populations as well as the sub populations and using this information in developing a priority process based on the annual needs and current data and performance measures to align the funding to best address the needs of homeless persons and persons at risk. The City is also actively works with the COC to implement the 2018 St. Louis County Five-Year Plan to End Homelessness.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The City of Duluth continues to work closely with the St. Louis Continuum of Care (CoC) on providing the ESG guidance, which contains specific protocols for prioritizing services to eligible households. As part of the CoC several committees have been developed that have representation from the City, County, service providers, and clients. These committees and their duties are as follows.

Heading Home St. Louis County Advisory Council- Establishes annual targets through strategic planning, decides final funding and reallocation, review and ranks projects, and monitors program performances.

Evaluation and Planning Committee – Reviews the annual Point in Time Count, performance measures, HMIS data, and City and County ESG annual reports (CAPERS) and makes recommendations to the leadership council and identify strategies not yet in place, revisit and update the objective achievements and plan of action. Through community collaboration creates the CoC project ranking criteria and tools for the Annual HUD NOFO process.

Other ad-hoc workgroups have been created to address Coordinated Entry, communication of priorities, and prevention targeting.

2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdiction's consultations with housing, social service agencies and other entities

Introduction

At the January 10, 2022 City Council meeting, Resolution 22-0040 approved the Community Development Committee funding recommendations based on estimated allocations. When HUD officially notified the city of the FY 2022 funding amounts on May 13, 2022, this resulted in a decrease of \$160,584 in CDBG funds, an increase of \$5,461 in HOME funds, and a decrease of \$3,002 in ESG funds. To address these funding changes, the following CDBG programs were reduced: Duluth Property Rehab by \$103,485.72; Community Action Free Tax site by \$1000; One Roof's Tenant Landlord Connection by \$1000; Family Freedom Center NYS JET program by \$1000; RAD Peer Based Recovery Support Program by \$1088; Center City Family Supportive Housing Corporation by \$20,000, and admin by \$33,010.28. The HOME program for One Roof's Community Land Trust New Construction was increased by \$5,461. The following ESG programs were reduced Safe Haven Domestic Violence Shelter by \$1000; Bob Tavani House for Medical Respite by \$802, Rapid Rehousing and Prevention Program by \$974 and city administration by \$226. The City's Community Participation Plan states that if a funding contingency plan is approved as part of the funding resolution and is in the public notice, then the reallocation of funds does not constitute a Substantial Amendment and does not require an additional public hearing. The Citizen's Participation Plan requires the Substantial Amendment process if :1) the goals or strategies change in the consolidated plan, 2) a project or activity described in the Action is not carried out 3) a project or activity not previously described is added to the action plan 4) an existing project or activity substantially changes their purpose/scope/location or beneficiaries, or 5) funding allocation are greater than 20%.

The CD Committee reviewed and approved the funding reallocation at their July 12, 2022 meeting and the funding reallocation will be presented to City Council on September 12, 2022. A 30 day public comment period for the funding allocation began on August 22, 2022. The Action Plan will not be submitted until the Public Comment period has expired. The expected resources in AP-15 reflect the HUD allocation amount received on May 13, 2022.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

CDBG, HOME, and ESG funds will help to leverage over \$20,000,000 annually (\$100,000,000 over the 5-year plan) of other federal, state, and local funds. Matching requirements have been regularly met and the city does not anticipate having difficulty in satisfying these requirements.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

Although not already identified, publically owned land is always considered as a way to reduce costs for new housing developments. The city of Duluth regularly considers using tax forfeited properties that Saint Louis County manages. These lands range from homes that are in need of rehab, to severely damaged/condemned buildings, to open lots. Often the city attempts to work with the county to remove the blighted structures and redevelop the land.

Discussion

The City continues to work with area funders, federal, state, and local funders to be able to leverage the federal funds that are received. While local private Foundations experienced a period of reduced funding availability, projections show those amounts to increase. Individual organizations and collaborations have improved at seeking out new and alternative funding sources, in order to maintain service levels within the city. The city also continues to encourage cost-saving-collaborations within the housing, public service, and economic development areas.

Projects

AP-35 Projects – 91.220(d)

Introduction

The city relies mostly upon non-profit and neighborhood organizations to carry out the goals of the Consolidated Plan and Annual Action Plans each year. Through an open application process the City of Duluth reviews and evaluates applications as to how they fit in with the plans. Projects are then funded and the city oversees progress to make sure the goals and objectives of the city are being met.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

The city of Duluth works to provide affordable housing in a multi-faceted manner through its policies and entitlement funding goals. The City will utilize sub-recipients to provide services for homeless people to help them obtain stable and affordable housing as well as assist low- and moderate-income populations to acquire or maintain affordable housing through rental assistance, building new units, and rehabbing existing units.

Discussion

Homeless service providers in Duluth work to provide comprehensive services including access to stable, affordable housing options for those currently on the street or with the possibility of experiencing homelessness, agencies that are involved with this service include CHUM, Safe Haven, Life House and the Bob Tavani House. Agencies that provide supportive services to people to help them remain housed include Sub-recipient agencies working together to provide these services include: Salvation Army, MACV Duluth, and Center City Housing Corporation. While the Tenant Landlord Connection and Landlord Incentive Program provide services for renters to keep them housed.

Sub-recipient agencies that are working to either rehab existing housing or build/provide new affordable housing programs to low income populations include One Roof Community Housing, Center City Housing Corporation, and the Duluth HRA.

The Duluth HRA provides a rental assistance program through the City's HOME funds, which will support

approximately very low income households using tenant based rental assistance. This program combined with the ESG Prevention and Rapid Rehousing program provides rental assistance.

AP-60 Public Housing – 91.220(h)

Introduction

The Duluth Housing and Redevelopment Authority manages approximately 1,008 public housing units and 1,453 Section 8 Housing Choice Voucher units.

Actions planned during the next year to address the needs to public housing

The City of Duluth does not expect to spend any CDBG, HOME, or ESG funds to address the needs of public housing beyond funding the HRA's tenant based rental assistance program. The HRA is exploring the various repositioning options allowed by HUD to move public housing to a more sustainable and reliable source of funding; thus, preserving public housing assets. These options include Section 18 disposition of scattered sites, RAD-PBRA and/or RAD-PBV for high-rise buildings, and Section 22 Streamlined Voluntary Conversion for remaining units not eligible for other types of conversion. The HRA will continue to monitor expansion and addition of repositioning options offered by HUD.

There are extensive waitlists for both the Section 8 Housing Choice Voucher Program and public housing. The HRA will continue to work at diligently processing applications from these lists. Periodically the HRA will send out letters to all households on the list and ask them to respond that they want to remain on the list (some may have housing already, some may have moved out of the area, etc.), to maintain efficiency in addressing Duluth's pressing housing needs.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

The HRA has a resident who is commissioner on the HRA board in addition to a resident advisory board for all public housing and resident clubs at each of the six high rise buildings. The Duluth HRA also has a Family Self Sufficiency Program that receives funding from HUD for FSS activities, which include the option to set up an escrow for future home ownership.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

Discussion

The city of Duluth works closely with the Duluth HRA to assure that the Public Housing policies and strategies are aligned with the cities strategies in order to best meet the need for housing in Duluth.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

St. Louis County (SLC) is one of many Continuum of Care (CoC) regions in Minnesota. Duluth is geographically located at the southern end of St. Louis County. There are two entitlement communities in SLC, the City of Duluth and St. Louis County.

City of Duluth has long history of working closing with SLC and homeless housing and service providers to address issues that impact persons who are homeless or at-risk of becoming homeless.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of Duluth is part of the St. Louis County Continuum of Care (CoC). The CoC coordinates with homeless providers and has developed a collaborative system to reach out to homeless. An integral part of the system is the Coordinate Access. The service providers have agreed under Coordinated Entry to use the Service Prioritization Decision Assistance Tool (SPDAT) as a common assessment tool for all homeless persons. As part of the assessment all individuals and families looking to receive housing assistance will first undergo a pre-screen administered by 2-1-1 United Way. This first step will help with prevention and diversion and refer those in need to emergency shelter. The client will then be administered the Vulnerability Index (VI) SPDAT at determined entry points. This is a quick, condensed version of the SPDAT and will give the recipient an acuity score which will determine the appropriate housing solution. The score will assess what program the individual best fits and puts the individual on a wait list if not available units are available. The most vulnerable individuals receive priority for housing. Once matched with the appropriate housing, the client's case manager will administer the SPDAT. The SPDAT measures a variety of issues that can effects a person's stability. The categories can be tracked over time as the SPDAT is administered every 3 months or so. The SPDAT can be inputted into HMIS. This will allow service providers to track stability much more effectively and show with data the progress an individual or family is making toward housing stability.

Addressing the emergency shelter and transitional housing needs of homeless persons

Through the Coordinate Entry system persons experiencing a housing crisis are able to be provided with a housing solution efficiently and effectively. The transitional housing providers, emergency shelters, permanent supportive housing providers, and public housing providers have collaborated on creation of the Coordinate Access System. In doing so the agencies also worked to developed goals and standards for each part of the system for which a client may utilize. For example, in shelter the goal is to reduce bed nights or average stay in shelter before housing. If a person is in transitional housing the goal is to

place the client into permanent housing or at least keep the person in transitional housing for 6 months rather than the street. If the person is in a permanent housing situation such as permanent supportive housing or public housing the goal is keep that person housed for 6 months. Meanwhile during all stages providers will be working to getting their clients stable income and employment, access to health services, etc.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The City of Duluth will fund Housing, Stabilization, and Coordinated Entry for people who are or recently have been homeless. This will include the work of Duluth agencies that include; Churches United in Ministry, Life House, Salvation Army, Center City Housing Corporation, Safe Haven, and MACV-Duluth.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The discharge plan outlines transition process steps, based on an evidence-based model called Critical Time Intervention, a standardized assessment tool that is used by all discharging entities upon client admission to identify those at risk of homelessness, specific services to be offered to all clients and additional services offered to at-risk clients. The Discharge Plan also outlines the roles and responsibilities of the collaborative partner agencies, including coordination, information sharing, staffing patterns for institutional-based and community-based staff, and training.

Discussion

The City is actively working with community partners for new ideas/innovations to assist people facing homelessness

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

As the housing market has recovered from previous recessions, rents and home sale prices are rising, but increases in income are not keeping up resulting in higher poverty rates and more cost-burdened households. The total number of housing units in Duluth is increasing, but there are still not enough units resulting in a “seller’s market” with competitive and quick home sales, low rental vacancy rates, and increasing rents. Recently and in the coming years baby boomers are retiring in record numbers, leaving positions that have been filled for decades. Employers across the state, including in Duluth, have had to be creative in attracting and retaining employees with competitive benefits packages and flexibility within the workplace.

In recent years the Lincoln Park neighborhood, one of the lowest income neighborhoods in the city, has started to see much needed reinvestment, but appears to have undergone some significant demographic changes since 2015, signifying that this neighborhood has a high displacement risk. Necessary reinvestment in neighborhoods, such as what is occurring in Lincoln Park, has the potential to displace or limit the ability to stay in place for some residents and businesses.

Impediments to Fair Housing Choice

The City reviewed demographic data, collected input from community members and organizations, and researched trends in housing and real estate in order to develop these impediments to fair housing choice. The following are the identified Impediments to affordable housing.

- 1) Exclusionary rental housing practices and policies directed at Section 8 Housing Choice Voucher holders
- 2) Exclusionary rental housing practices and policies directed at persons with criminal histories
- 3) Involuntary displacement and limited housing choice caused by gentrification
- 4) Policies and physical limitations in the built environment

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

Impediment 4: Policies and physical limitations in the built environment

Strategy 4.1: Conduct a feasibility study that investigates creative tools to incentivize or require some

affordable and/or accessible units in new housing developments.

Strategy 4.2: Continue to make changes to the City's Unified Development Code that address outdated land use and zoning policies, which in turn affect density and mixed income neighborhoods and residential developments.

Strategy 4.3: Explore an alternative rental-licensing program, such as a targeted or tiered system, that addresses rental housing quality, regulatory body and property owner accountability.

Strategy 4.4: Support new or existing rehabilitation programs that focus on healthy homes and retrofitting for ADA accessibility. Implement these programs in a variety of neighborhoods throughout Duluth.

Discussion:

As outlined in the Analysis of Impediments to Fair Housing Choice (AI), the City has taken steps to bring to light the legacies of historical discriminatory housing policies and is committed to addressing the modern-day effects of those policies and practices. Working with community partners, the City will use the Fair Housing Plan in the AI to track and address fair housing issues over the next few years.

AP-85 Other Actions – 91.220(k)

Introduction:

The city of Duluth has identified a number of actions that will address obstacles to meeting underserved needs, foster and maintain affordable housing, reduce the number of poverty-level families, develop institutional structures, and enhance coordination between public and private housing and social service agencies. Many of these actions were identified in the 2035 Imagine Duluth Comprehensive Plan and are in the process of being implemented.

Actions planned to address obstacles to meeting underserved needs

Among with the information in the Action Plan, the City adopted several actions steps to address this issue:

- Reuse previously developed lands, thereby allowing people to live close to services
- Support existing economic base and growth sectors, thereby increasing employment opportunities
- Promote reinvestment in neighborhoods, this includes addressing the digital divide
- Reinforce the place-specific, including increasing visibility of different cultures
- Creating and maintain connectivity, promoting non-vehicular transportation
- Encouraging a mix of activities, uses, and densities
- Supporting private actions that contribute to the public realm
- Taking action that enhance the environmental, economic, and social well-being of the community. The City recently adopted an Earned Safe and Sick time policy requiring employers to provide sick time to

employees

- Working with education systems in the community to increase connectivity and programs
- Creating efficiencies in delivery of public services
- Developing a healthy community
- Integrating fairness into the fabric of the community

Actions planned to foster and maintain affordable housing

This Action Plan is providing funding to programs that foster and maintain affordable housing, in addition the City is working to:

- Increase density in and around the designated Core Investment Areas
- Provide affordable, attainable housing opportunities, including projects that receive City funding such as TIF, are required to have an affordable housing component
- Prioritize inclusive housing policies to reflect the city's social, cultural, economic and historic diversity and development patterns
- Improve the quality of the city's housing stock and neighborhoods
- Expand the cohesiveness of "One Duluth" by expanding a variety of housing opportunities throughout the city while maintaining unique community characteristics within distinct individual neighborhoods
- Working with other local and state agencies on funding affordable housing
- Working with MN Housing to maintain affordability in existing projects, aka Preservation Projects
- Actively looking for areas for new affordable housing

Actions planned to reduce lead-based paint hazards

City of Duluth policy requires all rental and homeowner rehabilitation programs and projects receiving federally funded assistance to coordinate with the Duluth HRA for lead assessment, testing and clearance services. Given the age of Duluth's housing stock that predicts 68% contains lead-based paint, the concentration of low- and moderate-income households in less expensive older units, and the past experience of agencies implementing rehab programs, it is highly probable that all, or nearly all,

rehabbed units will contain potential lead hazards.

Actions planned to reduce the number of poverty-level families

This Action Plan is providing funding to programs that provide job training and child care, in addition the City is working on other strategies, including:

- Investing in people to increase employee's skills, ensuring workforce availability for all employers, and promoting income self-sufficiency. This includes the City providing different pathways for Career Force and Workforce

- Fostering growth of existing employers and strategically recruiting new employers to Duluth, to increase employment opportunities

- Embrace the Outdoors as an Economic Engine and Source of Community Wealth- this provides additional employment opportunities as well as social/physical/mental health to help improve people's lives

- The City adopted a Community Benefits Policy and Business Subsidy Policy when City funds are being used

Actions planned to develop institutional structure

This City has a number of commissions to address traditional institutional structure that has not been all inclusive. These commissions develop policies and provide feedback on legislation. These commissions include: Indigenous Commission, African Heritage Commission, Human Rights Commission, Commission on Disabilities, and the Citizen Review Board.

Actions planned to enhance coordination between public and private housing and social service agencies

City Staff are members of many community oriented groups, include the Affordable Housing Coalition, COC Governance Board, Census Outreach Committee, and local neighborhood groups.

Discussion:

The City of Duluth adopted the Imagine Duluth 2035 plan on June 25, 2018 which contains many provisions to address these issues. Every year the City produces a "report card" of the implementation steps to review progress.

NA

Emergency Solutions Grant (ESG) Reference 91.220(l)(4)

1. Include written standards for providing ESG assistance (may include as attachment)

Yes, See Appendix: ESG Written Standards.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

The CoC Coordinator with homeless providers and City staff developed a Coordinated Assessment/Entry System. The service providers ha use the Service Prioritization Decision Assistance Tool (SPDAT) as a common assessment tool for all people who are or about to experience homeless. As part of the assessment all individuals and families looking to receiving housing assistance will first undergo a pre-screen administered by 2-1-1 United Way. This first step will help with prevention and diversion and refer those in need to emergency shelter. The client will then be administered the

Vulnerability Index (VI) SPDAT at determined entry points. This is a quick, condensed version of the SPDAT and will give the recipient an acuity score which will determine the appropriate housing solution. The score will assess what program the individual best fits and puts the individual on a wait list if not available units are available. The most vulnerable individuals receive priority for housing. Once matched with the appropriate housing, the client's case manager will administer the SPDAT. The SPDAT measures a variety of issues that can effects a person's stability. The categories can be tracked over time as the SPDAT is administered every 3 months or so. The SPDAT can be inputted into HMIS. This will allow service providers to track stability much more effectively and show with data the progress an individual or family is making toward housing stability. The City, County and Duluth HRA jointly pay and supervise a Coordinated Entry Coordinator who oversees the list of available housing opportunities and the people on the waiting list to look for the best matches.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

The City Community Development Committee uses the same process to allocate CDBG, HOME and ESG funds, based on an annual open application process, that is open to non-profit and community organization. During the process, the organizations submit applications describing how their use of ESG funding would help to reduce the number of people experiencing homelessness or provide services for those people who are or about to become homeless.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

The Community Development Committee seeks out homeless or formerly homeless individuals to serve on the committee. The Committee has regularly had at least one person who has experienced homeless appointed, and participates in the policy and funding decisions. Also the COC's Heading Home Saint Louis County Advisory Council has people who have experienced homeless and this group helps to develop the priorities used for ESG and COC funds.

5. Describe performance standards for evaluating ESG.

Yes, See Appendix: ESG Written Standards.
