

Kenwood/Arrowhead Intersection

2015 Traffic Plan

Updated 9/25/15

The proposed improvements to the Kenwood/Arrowhead and Kenwood/Cleveland intersections are estimated to cost about \$1,000,000, of which \$200,000 will be paid for by the developer of the property on the southwest side of Kenwood/Arrowhead. The remaining amount is being included in the City budget.

Full design for these improvements would be conducted in 2016, with improvements being constructed in 2017.
