SUBJECT: Hydrant repair in Bayview Heights on June 13 will interrupt water service to residents

BY: Pakou Ly, Public Information Coordinator

Hydrant repair in Bayview Heights on June 13 will interrupt water service to residents

[Duluth, MN] - The City of Duluth Public Works and Utilities Department has identified a leaking fire hydrant at 87th Ave West and Vinland Street in Bayview Heights that is in need of repair. City crews will need to work on the hydrant first thing tomorrow morning, Friday, June 13, which will require water being turned off. Properties in the Bayview Heights neighborhood west of 77th Ave W. in Duluth will not have water from about 8:30 a.m. to approximately 4:00 p.m.

The City thanks the public for their patience as crews work to expedite repairs. Water service will resume as soon as repairs are completed.
