## **Addendum #1**

City of Duluth RFP No. 15-0722  
Superior Street Reconstruction Final Design Phase  
City Project No. 1507

This addendum serves to notify all bidders of the following changes to the solicitation documents:

### **SCOPE OF SERVICES**

#### **2. Plans & Specifications**

Add the following paragraph:

g. Duluth Energy Systems' current steam district heating system will be replaced with a hot water system along Superior Street. Duluth Energy Systems will provide the Consultant with engineering services and design details for the new hot water system to include pipe sizes, piping details (mains and service laterals), and the notional locations of all associated items to include valves, vaults, communication services, vents, drains, etc. Duluth Energy Systems will also provide material specifications and installation requirements. The Consultant will provide drafting services to incorporate the preliminary hot water system design and details into CAD format as necessary. The Consultant shall coordinate with Duluth Energy Systems to evaluate and resolve conflicts with other utilities in order to determine final location and depth of the new hot water system within the right of way. Upon completion of the final design, Consultant shall incorporate the final hot water system specifications, layout and details into the applicable digital files that are to be used to create final bid plans and specifications.

Please acknowledge receipt of this Addendum by signing, dating, and submitting a copy with your bid/proposal. Thank you.
