Superior Street Construction - Word on the Street Update (May 1, 2019)

Wrap-up of Last Week

- The wall between 1st Avenue E and 2nd Avenue E was removed to prepare a new retaining wall.
- Crews worked on installing the temporary water main.

What to Expect May 1-7

- Access to all businesses and residences will remain open.
- Crews are continuing work on installing the temporary water main.
- Working slab was poured and footings are being formed for the new retaining wall between 1st and 2nd Ave E.
- 7x12 foot electrical boxes are being installed.
- Beginning Monday, May 6, the removal of 100 year steam heating system will be removed. The removal of the existing District Steam Heating System, within the limits of this year's project, involves the mitigation and removal of the existing asbestos containing steam pipes that have been serving Downtown Duluth for over 100 years. The removal of these pipes will be performed by a licensed asbestos abatement contractor and environmental monitoring will be performed to ensure worker and public safety. Signs will be placed at the location of the work site to inform the public that asbestos abatement is occurring and to delineate the work zone. Public cooperation is requested to stay within the designated pedestrian areas and out of the delineated work zone. Access to all businesses will be maintained while this work is performed.

Weekly Meeting

- All are welcome at the weekly construction update meeting every Tuesday at 9:00 am at Greysolon on the ballroom level.
