Highland Water Tower in Duluth Heights to Undergo Temporary Maintenance

[Duluth, MN] – The City of Duluth is informing residents that the Highland Water Tower located in the Duluth Heights neighborhood will be undergoing general maintenance this week for several days. The work will require taking the tank out of service and the installation of pressure release apparatuses at particular hydrants in the immediate vicinity of the water tower. The general public should not be concerned if they see the apparatuses or some water dripping from these hydrants as this is part of the maintenance work. Orange fencing will be installed around these hydrants.

Customers will see no disruption in their water service. The City thanks the public for their patience and cooperation.
