**DATE: 3/1/2023**

**SUBJECT: City provides snow operations update**

**BY: Kelli Latuska, Public Information Officer**

**City provides snow operations update**

[DULUTH, MN] City of Duluth plow operators are out in full force to clear main roads for access to hospitals, schools, etc. Their work continues today and they'll get into residential roads and alleys following these priorities:

- Priority 1 (main arterials)
- Priority 2 (residential streets)
- Priority 3 (alleys)

To view our Street Priority Map, or to learn more about the City's snow operations, please visit the following link: [www.duluthmn.gov/snow](http://www.duluthmn.gov/snow)

As this storm system wraps, the City reminds residents that within 24 hours of the end of a snow event, property owners ought to have cleared their sidewalks of snow and ice to allow safe sidewalk access for pedestrians. For information on sidewalk clearing, please visit: <https://duluthmn.gov/snow/snow-removal-requirements/>

To stay up to date on the National Weather Service's forecasts and information, please visit the following link or follow them on Facebook or Twitter: <https://www.weather.gov/dlh/>

Again, the City asks residents to be safe and patient as this system moves through. If you are able, help your neighbors and those who may need it. Stay off the roads if you can and provide extra travel time so that you can slow down and travel safely. Give City, MnDOT, and St. Louis County plows plenty of room to operate safely. The City is extremely grateful for all plow operators throughout the city and region working long days and overnight to keep access to hospitals, for emergency vehicles, buses, etc. open and safe.
