**SUBJECT: West End Residents without Water Service**

**BY: Amy Norris, Public Information Coordinator**

---

## **West End Residents without Water Service**

The failure of a water valve in West End will cause residents to be without water for the next several hours. At approximately 11:00 AM a water valve broke in the West End Lincoln School area. The areas without water include: two blocks on Wellington Street, one block on Ensign Street and one block on Lyman Street. The area affected includes the new Lincoln Park Middle School. City crews are currently repairing the break and anticipate it will take from four to six hours to complete the work.
