### **East 4th Street repairs extended to week of April 4**

[Duluth, MN] - The City of Duluth is informing the public that City crews will continue their pothole repair work next week starting on April 4, on the 1300 block of East 4th Street with the goal of finishing up the 1500 block by the end of the week. The project has been extended due to this week's wet conditions.

The work area will be marked as no parking and no through traffic will be allowed. The project should be completed next week, assuming favorable weather conditions. In the case of rain, crews may have to extend repairs into the week of April 11.
