### **Aerial Lift Bridge to Undergo Maintenance July 13**

[Duluth, MN] - The City of Duluth is working with a contractor power wash the Aerial Lift Bridge deck on July 13 to help ascertain its current condition as part of general maintenance. The Bridge will be down to one lane traffic during this time. The east lane (headed to downtown) will be closed meaning that two way traffic will be managed by traffic lights. The contractor will start early in the morning and anticipates finishing before Noon.

Anyone headed into or out of Park Point should plan for additional travel time.
