SUBJECT: Downtown Duluth Street Repairs: Expect Short Delays

BY: Amy Norris, Public Information Coordinator

Downtown Duluth Street Repairs: Expect Short Delays

The City of Duluth would like to inform motorists starting Wednesday, June 6th and continuing for approximately one week, City Crews will repair potholes and brick problems along Superior Street and other Downtown Duluth areas. Street repairs will start at 6th Avenue East and Superior Street and work East to 4th Avenue East closing one block and one lane at a time. The same procedure but in reverse will followed to repair the other side of the street.

Motorists should expect temporary delays in their commute as street repairs are conducted and are reminded to pay attention and drive carefully.

We ask for your patience and assistance in this matter as we work to improve conditions for motor vehicle traffic.
