## **Parking Violation Fines Updated for 2014**

[Duluth, MN] – The City of Duluth has revised the parking ticket fines effective January 1, 2014. The public is reminded that adhering to the parking rules not only reduces the risk of getting ticketed but also creates a much safer streetscape for motorists and pedestrians. This safety component of parking becomes even more important during inclement winter weather.

The revised fine structure was approved by the Duluth City Council at its December 16, 2013 meeting. Fines for expired or unpaid parking meters remain at \$12 while tickets for parking the wrong direction, non-compliance with alternate side parking, or double parking, to name a few, result in fines of \$24. Additional parking fines are listed on the City's website at [www.duluthmn.gov/parking/on-street/fines.cfm](http://www.duluthmn.gov/parking/on-street/fines.cfm)
