SUBJECT: Watermain break on Arlington Ave, Residents in Duluth Heights, Hermantown, and Miller Hill area asked to conserve water

BY: Pakou Ly, Public Information Coordinator

**Water main break on Arlington Ave,
Residents in Duluth Heights, Hermantown, and Miller Hill area asked to conserve water**

[Duluth, MN] - The City of Duluth Public Works and Utilities department has identified a water main break on Arlington Ave that feeds into the Arlington reservoir. This reservoir supplies water to Hermantown, Duluth Heights, and the Miller Hill areas. The public is asked to conserve water for the next 24 hours as crews work to make repairs today. There will be no disruption to water service but conservation will ensure adequate water supply to all residents and businesses in the impacted area and will allow time for the reservoir to refill to capacity after the repairs are completed.

The City thanks the public for their patience and cooperation.
