Crews performing routine cleaning operations on Aerial Lift Bridge tomorrow

[DULUTH, MN] The City of Duluth's Aerial Lift Bridge will be undergoing annual spring cleaning operations tomorrow morning. Crews will flush debris, sand, and salt that built up in on the bridge with water, which could cause a slip hazard for pedestrians walking under the bridge on the pier walk. Hoses may also create a trip hazard for pedestrians crossing the bridge. Pedestrians should use extra caution when walking on or near the bridge during these operations.

Aerial Lift Bridge Operations thanks the residents for their cooperation during the process.
