

VIRTUAL CARE

SAVE TIME AND CONNECT WITH A PROVIDER ONLINE

Virtual care*, also known as online care or an e-visit, is a convenient way to get care for many common conditions. Connect with a provider from your computer or mobile device to get a diagnosis, treatment plan and prescription (if needed).

Virtual care may be a time-saving option for common conditions like:

- Allergies
- Bladder infection
- Bronchitis
- Cold and cough
- Ear pain
- Flu
- High blood pressure
- Migraines
- Pink eye
- Rashes
- Sinus infection
- Other non-urgent, common health conditions

With a virtual care visit, you:

- » Save time — avoid a trip to the doctor's office and get care from the comfort of your home, work or wherever you are.
- » Initiate the visit at your convenience — no appointment needed.
- » Get care when you need it — visits are often available after clinic hours, sometimes even 24/7.
- » May save money — a virtual care visit may cost less than a regular visit to the doctor's office, depending on your plan.

To check your plan's coverage for virtual care, log on to **[mymedica.com](https://www.mymedica.com)**, select *Look Up My Benefits* and click on *Coverage Documents*. Look for "virtual care" under the Physician Services section. Or call Customer Service at the number on the back of your Medica ID card.

MEDICA®

*Virtual care is different than receiving care via telemedicine. With telemedicine, you go to a doctor's office or other health care facility and connect with a provider at another location using the phone, internet or another means.

**To check your plan's coverage for behavioral health, log on to [mymedica.com](https://www.mymedica.com), select *Look Up My Benefits* and click on *Coverage Documents*. Look for "office visit" under the Behavioral Health — Mental Health section.
