Addendum 2
Solicitation 21-AA11
RFP Landscape Architect for Endion to 23rd Ave E and Brighton

This addendum serves to notify all bidders of the following changes to the solicitation documents:

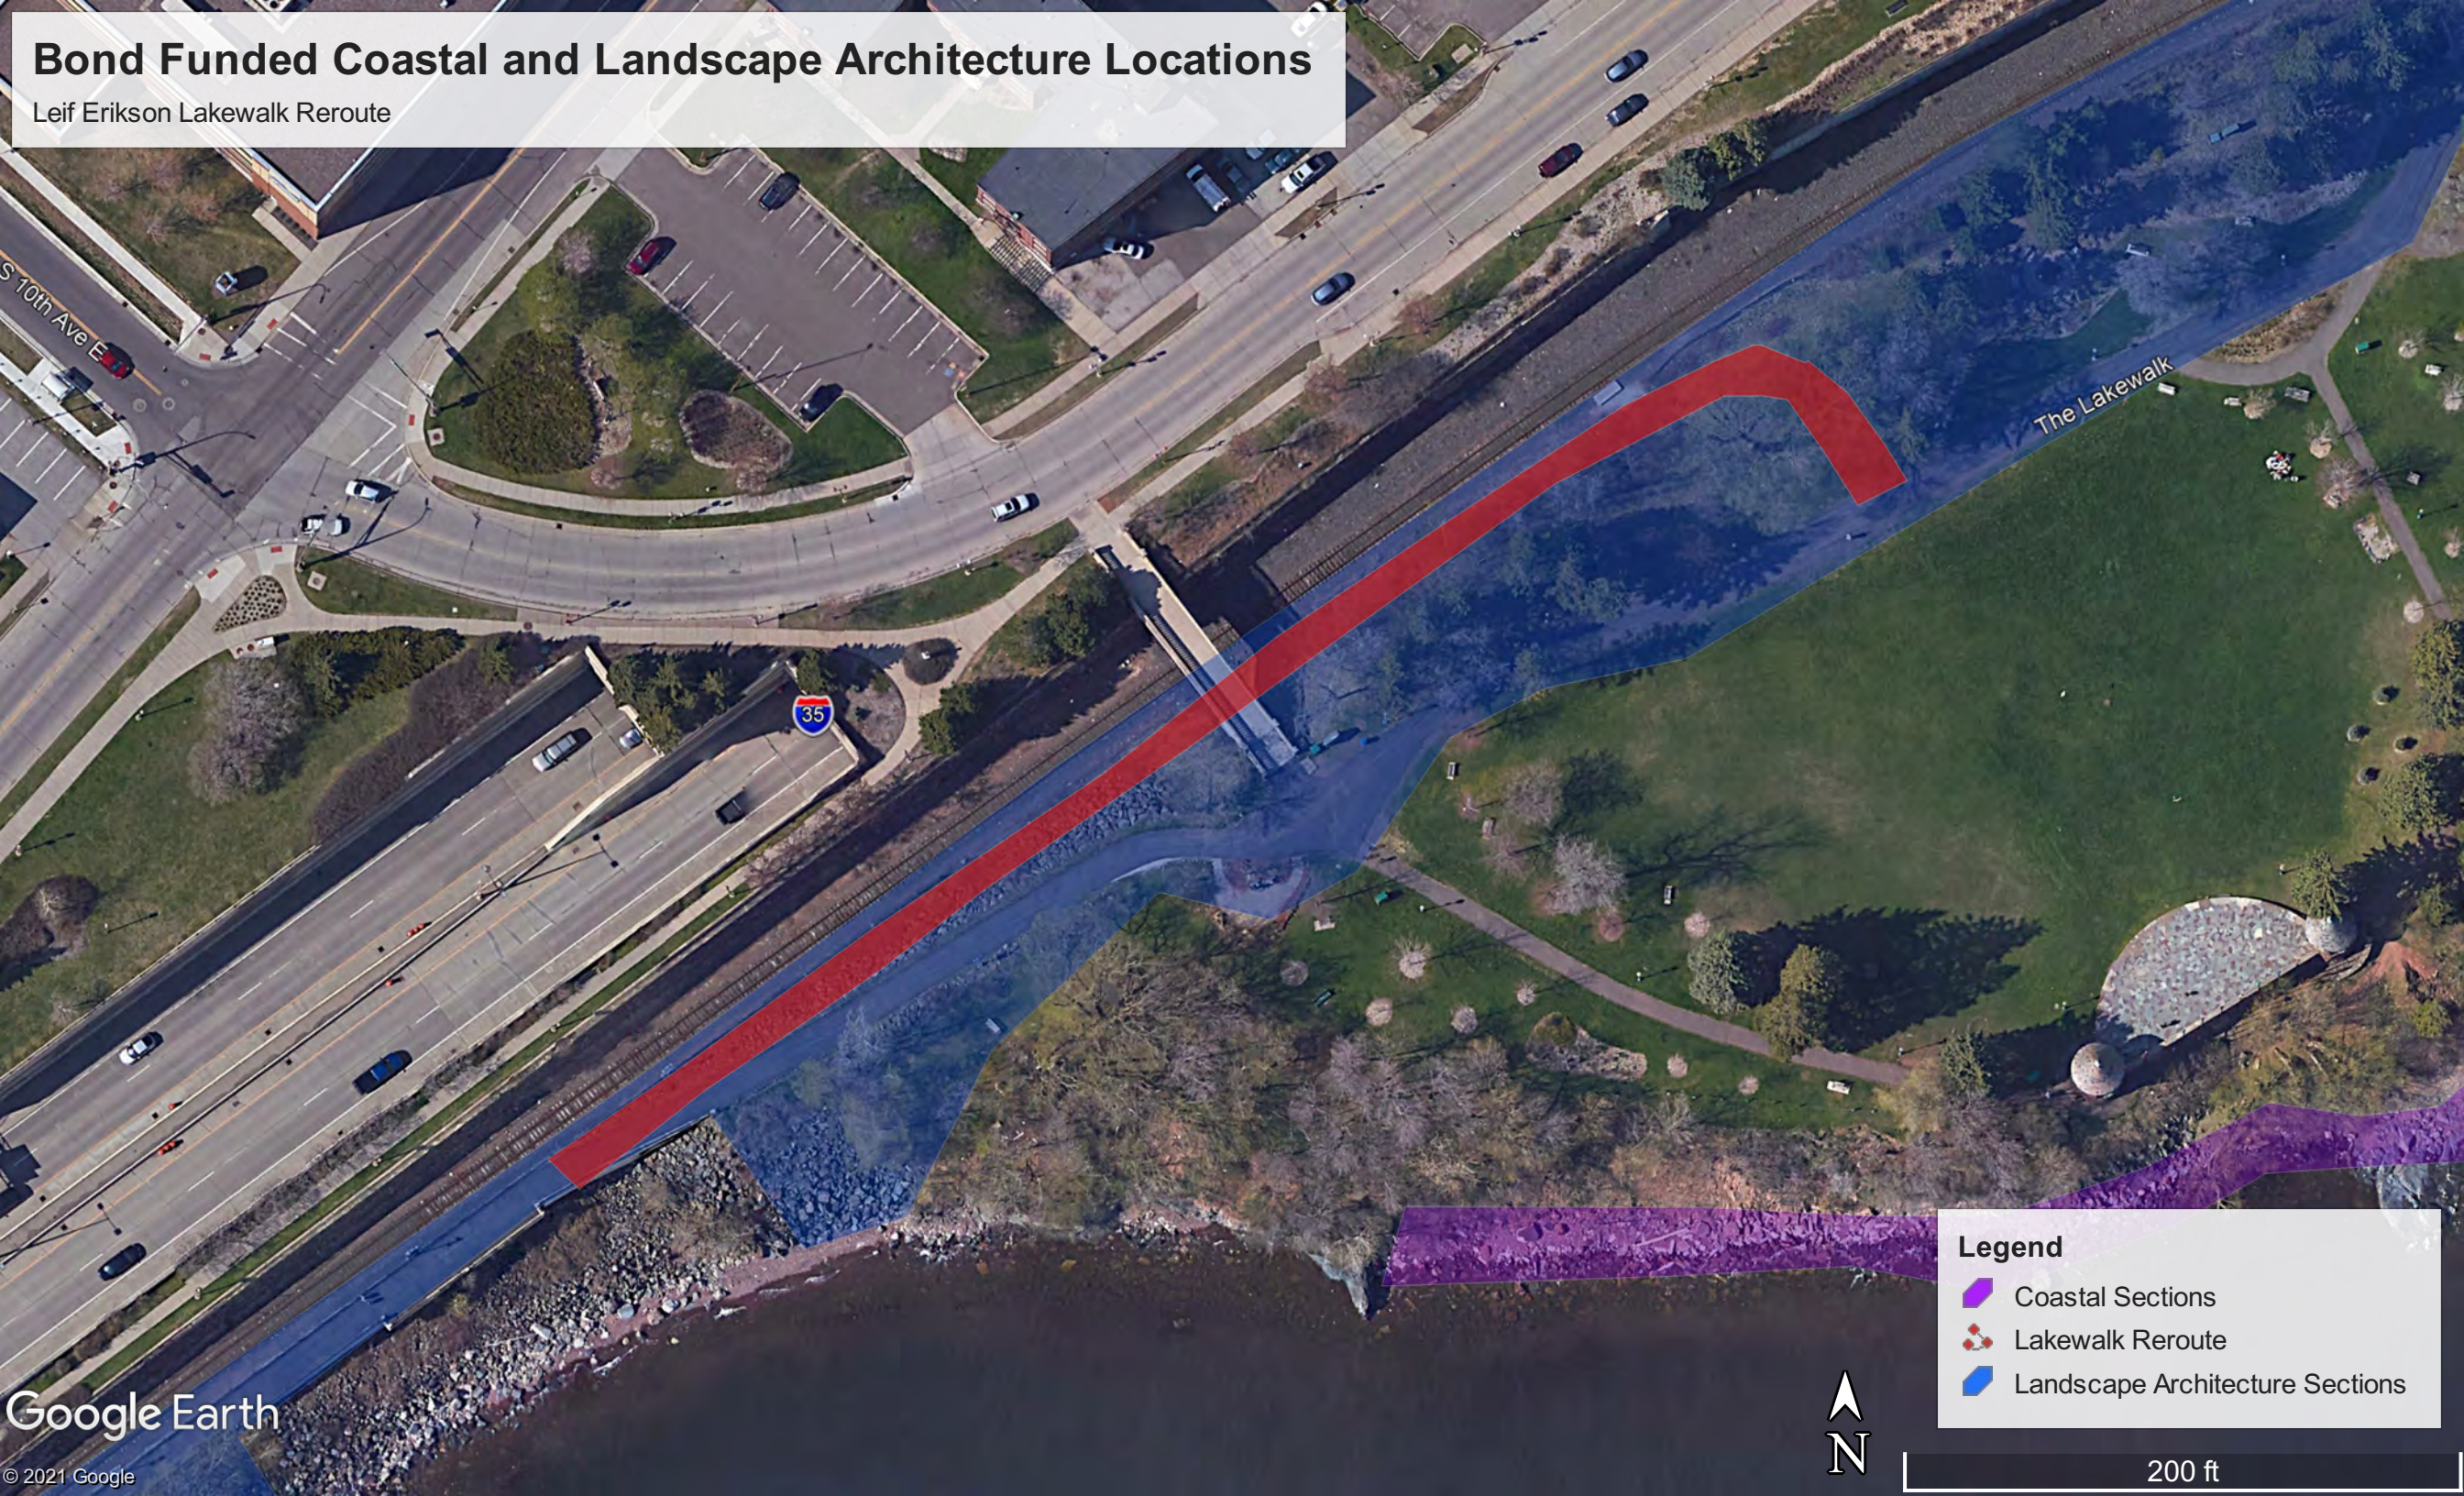

1. Attached is a map indicating areas between Endion Station and 29th Avenue East that do not meet slope minimums in the MnDOT Bicycle Facility Design Manual. There may be additional areas that do not meet the slope minimums. Consultant is to analyze the entire trail route from behind Endion Station to 29th Avenue East against these standards and propose an alignment and slope correction in pre-design format for any areas that do not meet the standards. Extensive landscape architect services are not anticipated for the areas between 23rd Avenue East and 29th Avenue East.
2. The pre-bid meeting sign-in sheet is attached.

Please acknowledge receipt of this Addendum by including this page with your proposal.
