Addendum 1
Solicitation # 22-AA04
Delivered Aggregate Materials

This addendum serves to notify all bidders of the following changes to the solicitation documents:

Questions asked are answered below in italics.

1. Would the City be open to a price for Class 5 material made from 100% recycled concrete?

City of Duluth would entertain an additional price, but not as an instead for Class 5 Material made of 100 percent recycled concrete.

2. Is the bedding sand to meet the "Granular Bedding" portion of the 3149 MnDOT 2020 spec? We have a 3/8" sand we produce. The material is very close to the gradation but not exact.
 - a. Is there a preapproval process before bidding? I could send past gradations to someone to review if it would be acceptable?
 - b. It is not washed, but screened. Is that acceptable if it meets other requirements?
 - c. Is there an acceptable tolerance on the #200 sieve requirements? Your maximum spec is 2%, we are historically between 2 and 3% on our material.

All Materials Must Meet Specifications Listed in Solicitation #22-AA04

Please acknowledge receipt of this Addendum by initialing and dating Addendum 1 below the bid form on the invitation for bids.
