

PROFESSIONAL SERVICES FOR THE STUDY, DEVELOPMENT AND IMPLEMENTATION OF A PARKS & RECREATION MASTERPLAN

All responses are due by 2:00 p.m., May 26, 2009

I. BACKGROUND:

The City of Duluth is seeking a consultant to conduct a Parks & Recreation Master Plan & Service Needs Assessment in an effort to modernize its offerings and provide safe & efficient programming in each of the City's districts. Over the years, Parks & Recreation, along with Parks Maintenance, has been challenged to maintain services at its parks and community centers due to reduced resources, manpower and population. While we continue to strive to provide an environment where all children and adults involved in programs which are conducted in our facilities and grounds, feel safe and welcome, we are feeling the constraints of reduced manpower and budget and feel our efforts would be better served in consolidating and redefining our goals, objectives and mission. While our facilities and programs continue to assist our citizenry, the appropriateness and locations in which they are delivered provide us opportunity to upgrade and offer current programs to the public. Our parks, playgrounds and community centers play an important role in promoting a sustainable and livable community.

This vital Parks & Recreation component of the facilities needs assessment will be to analyze our Parks & Recreation Department, inclusive of Park Maintenance to evaluate and forecast current, short term and long term facility space needs, conditions and recommended improvements with estimated costs associated with the assembled results.

In addition to the above, the City of Duluth is experiencing many demographic changes. The ethnic and cultural diversity of the community is expanding. The education and income levels are also changing. As the community changes, the City of Duluth wants to be prepared to serve all residents and determine how to better engage them in programs, services and the public input process. Therefore, funds have been secured through the Community Development Block Grant Program to conduct this vital facility needs and program assessment.

II. PROJECT:

The City of Duluth is requesting proposals from qualified firms for the preparation of the Park & Recreation Master Plan Study and Service Needs Assessment.

The City of Duluth will gain a community based, statistically valid, description of recreational program issues, needs and facility recommendations that will be the basis for creation of a Strategic Plan. The expected outcomes of this assessment are to:

- 1) Assess satisfaction levels with the quality, quantity and management of existing parks, programs, facilities and services.

- 2) Determine current resident usage levels of programs and facilities and the appropriateness of when and where these services are offered.
- 3) Identify the community's interest in the addition of future facilities and the consolidation of some facilities, programming and services.
- 4) Identify future interests regarding implementation of new programs and services that meet the needs of the community and responds to new trends in the leisure services industry, while remaining fiscally viable for the long term.
- 5) Determine how effective the City of Duluth is at communicating its products and services and disseminating relevant information to current and potential customers.
- 6) Obtain general demographic characteristics of both users and non-users and identify perceptions of the various market segments and cultural/ethnic groups of Duluth's programs, parks and facilities.
- 7) Identify what prohibits non-users from taking advantage of the City of Duluth services and if they participate in other similar activities not sponsored by the City of Duluth.
- 8) Investigate how citizens wish to use their discretionary time and how the City may provide recreational opportunities that take into account the economic and time constraints of the community.
- 9) Provide residents the opportunity to offer suggestions and comments about the opportunities provided to them by the City of Duluth.
- 10) The Parks & Recreation Master Plan shall include an assessment of facility needs and appropriateness with a cost estimate(s) for all work required in order to implement same. Any recommended impact fees associated with the parks & recreation component shall also be included in your documentation. The following facilities shall be included in your study:
 - A) Park Facilities (see attached Appendix 'A' – A final listing of included properties will be negotiated with the selected firm(s))
 - B) Parks & Recreation Grounds (see attached Appendix 'B' and 'C' - A final listing of included properties will be negotiated with the selected firm(s)).

III. SCOPE OF WORK:

Proposals shall address, but may not be limited to the following:

- 1) Qualitative component to collect in-depth narrative data through methods such as focus groups, public workshops, open public meetings and/or personal interviews. The City of Duluth would like to engage a minimum of 500 residents in this process.
- 2) Quantitative component to collect data based on statistically reliable sample of the community ($\pm 5\%$), using a valid and reliable questionnaire that is distributed in a manner that yields the highest response rate that closely matches the community's demographics.

Data shall use standard and consistent address formats so that data can be geo-coded by City staff to interface with the City of Duluth's GIS system.

- 3) Data analysis component where the data is analyzed in a scientifically valid manner which represents the standard of the industry for this type of information collection.
- 4) Data interpretation component that takes the analyzed data and then provides a simple interpretation in the form of recommendations and action plan statements.
- 5) Data access component where the data that has been collected is returned to the city in a form the City can continue to analyze the data.

In order to complete the intended Scope of Work the consultant's proposal should minimally include the following services:

- 1) Meetings and workshops with City staff.
- 2) Moderation of focus group meetings. Provide for one in each of the 11 districts located within the City of Duluth.
- 3) Moderation of community open meetings. Provide for a minimum of four (4) such meetings.
- 4) Survey & Questionnaire design and formulation.
- 5) Statistical sampling. Collection, gathering and formulation/compilation of same.
- 6) Data collection and entry.
- 7) Data analysis.
- 8) Data interpretation in the form of both a draft and final report.
- 9) Presentation of results to a Parks & Recreation Citizens Advisory Commission and the City Council.
- 10) Compilation and deliverance of all data in compatible, digital form.

TASK 1: *Inventory & Identification of Existing Deficiencies*

For this task, the Consultant shall include the following services:

A. Population & Development:

- 1) Acquire from City Planning & other agencies as required, information relating to existing and future population and land development. This information will be made available in the form of information compiled for the current Comprehensive Plan.
- 2) Meet with designated City staff to clarify the information as necessary.

- 3) Prepare an inventory of existing and projected future population and land uses for an anticipated 20 year planning period in the format to be included in the public facilities needs assessment report.

B. Parks & Recreation:

- 1) Acquire from the City of Duluth and review information relating to park & recreation facilities and service levels, including the Parks & Recreation open space plan, old master plan, current programming plan, information pertaining to existing park facility fee structure(s), current budget, create/obtain existing facility base drawings and any other necessary documentation.
- 2) Meet with designated City staff to review existing deficiencies and planned future expansions or program changes.
- 3) Review the inventory of existing parks and recreation facilities and existing deficiencies in the number and kind of facilities in the format to be included in the facilities needs assessment report.
- 4) Conduct public meetings and interviews to ascertain usage and future activities the community may require for the future direction of recreational activities within the City of Duluth.

TASK 2: *Needs Assessment & Identification of Costs Attributable to Future Development*

For this task, the consultant shall include the following services:

- 1) Based on the general recommendations of the City of Duluth's Parks & Recreation existing master-plan and internal study as conducted in 1995-6. Develop more specific recommendations for Park & Recreation facilities beyond the 5 year, Capital Improvement Program. The recommendations should be specific to the level of describing the approximate size and general location of each recommended park and a list of the types of and numbers of facilities that should be included. It would be beneficial to develop conceptual design plans for anticipated changes, consolidations and uses.
- 2) Based on the recommendations for additional or varied park development, project future vehicle and equipment needs of the Park & Recreation Department, inclusive of Park Maintenance.
- 3) Develop preliminary recommendations for the approximate size and locations of any additional storage facilities. The recommendations should be specific to the level of describing the rooms and approximate size that will be needed for each park and recreation function.
- 4) Develop an estimate of the probable cost associated with the facilities identified in this facility needs assessment.
- 5) Determine the proportionate share of the costs of facilities in the 5 year CIP and the recommended long-term facilities plan that is attributable to the need to serve any future development.
- 6) Conduct thorough reviews of relevant previous studies, reports & master plans. Coordination and considerations given to current Comprehensive Plan and ISD #709 "Red Plan" conception and implementation.

TASK 3: *Develop Recommended Impact Fees*

For this task, the Consultant shall include the following services:

- 1) For Parks & Recreation facilities, make recommendations regarding the continuation or abolishment of the existing 'site based programming' and implementation of parkland improvement fee or new development fee which assists in supporting park maintenance.
- 2) Determine the amount of the cost for the facilities evaluated in Task 2 that can be recovered through 'impact fees' charged to residential and/or commercial and industrial development. For park & recreation facilities, identify those capital costs that are recommended to be funded from existing fund balances. If it is recommended to continue the CIP funding in lieu of a dedicated park improvement fee, identify which capital costs are recommended to be paid from future CIP and which are recommended to be funded with newly created impact fees.
- 3) Develop a methodology to allocate new development the proportionate share of capital costs attributable to future development for each of the facilities.
- 4) Prepare recommended impact fee schedules for residential, commercial and industrial development within the City of Duluth.
- 5) Make recommendations for each fee as to the timing and procedures for collecting the fee (i.e., time of subdivision plat versus time of building permit).
- 6) Evaluate the impacts on housing affordability in the City of Duluth of imposing any new fees.

TASK 4: *Report Preparation*

For this task, the Consultant shall:

- 1) Draft a report(s) summarizing the Parks & Recreation Master Plan and Impact Fee Study.
- 2) Submit twenty (20) draft copies of the report for City staff review and comment.
- 3) Attend two (2) meetings with City staff to review the draft report.
- 4) Make all agreed upon revisions to the draft report and make necessary corrections to same.
- 5) Prepare thirty (30) bound copies of the Final Report and submit to the City of Duluth. Make a final presentation to the Administration and to City Council and Public.
- 6) Formulate and compile all documentation contained in the Final Report into digital medium compatible with the City of Duluth's web site.

TASK 5: *Implementation Assistance*

For this task, the Consultant shall:

- 1) Attend two (2) meetings with the City Chief Financial Officer (or designee) to present the study and answer questions.
- 2) Attend two (2) meetings of the Duluth City Council to answer questions related to the proposed Impact Fees.
- 3) Draft an ordinance to implement the recommended fees, and submit the draft ordinance to the City of Duluth, Attorneys office for their review, edit and approval.

- 4) Attend all public hearings associated with the presentation of the Final FNA Report and any necessary or required public hearing prior adopting any proposed Impact Fees in order to answer any questions which may arise from same.

TASK 6: *Meetings & Presentations*

For this task, the Consultant shall:

- 1) Meetings with City staff as needed to review and clarify information provide by the City or its agencies.
- 2) Attend two (2) meetings with the City Chief Financial Officer (or designee) to present the study and answer questions.
- 3) Attend two (2) meetings with City staff to review the draft report.
- 4) Attend two (2) meetings of the Duluth City Council to answer questions related to the proposed Impact Fees.
- 5) Attend all public hearings associated with the presentation of the Final Report and any necessary or required public hearing prior to adopting any proposed Impact Fees in order to answer any questions which may arise from same.

If additional services are necessary to complete the scope of work, please include those items you feel are pertinent in performing these services in your submittal.

IV. STATEMENT OF QUALIFICATION:

Proposals should include the following information, in a clear, comprehensive and concise manner to illustrate the firm's capabilities and technical approach to the work.

- 1) The cover sheet should contain: the date submitted, title; ***"RFP: Professional Services for the Study, Development and Implementation of a Parks & Recreation Master Plan,"*** firm's name, address and telephone number of the firm making the proposal, and the name of the contact person responsible for the proposal.
- 2) Identify the team who will be assigned to perform services required for various aspects of the project. Include the education, degrees, professional registration and resume' of experience for all principle team members. If multiple firms or individuals are joining for this project, please indicate the name of a person who is most likely to perform the role of lead project manager (the person who will be directly responsible for organizing the major elements of the work and serve as the City of Duluth's primary contact).
- 3) State your firm's or individual experience in performing this type of service, with special emphasis on governmental and school districts projects. Include the name, address and telephone numbers of other school districts for which you have performed similar services.
- 4) State the fee your firm believes will be reasonable for providing the services outlined above in Section II & III. Include as an appendix to this submittal, a schedule of hourly rates and reimbursable costs associated with the work for additional services.

- 5) Selection of the Consultant will be done based upon a scored, ranking system. Firms will be first ranked based upon their submitted, written proposals. Interviews may be conducted with one or more of the top ranked firms if needed after the above. The City of Duluth will solicit a contract from the top ranked firm. If an agreement cannot be reached, the City of Duluth will solicit a contract from the next highest ranked firm and so on, until an agreement is reached. The City of Duluth reserves the right to reject any and all proposals. See Section V for further criteria and submittal requirements.
- 6) The successful firm will be expected to commence work within ten (10) days of a City Council approved contract and be completed within six (6) months from contract award.

V. ANTICIPATED PROJECT APPROACH:

- 1) Provide a maximum five (5)-page statement to describe the approach your firm anticipates it will promote in completing this project. Please summarize all phases, organization, and basic processes.

VI. DELIVERABLES:

- 1) Provisions of materials for meetings, workshops and submission of written notes following each meeting.
- 2) An interim report following the quantitative and qualitative project components.
- 3) A camera ready and electronic version of the final questionnaire/survey tool.
- 4) A 'Draft' report and a 'Final' report presented in both hard copy and in electronic format.
- 5) A 'Final Executive Summary' presented in both hard copy and electronic format. Medium shall be in a publicly distributable format such as a web page or pdf file.
- 6) The entire data set along with computerized method of continuing data analysis.
- 7) Graphics of all data concluded. Comprehensive Master Plan showing all conclusions reached. Shall be in digital format which can be updated for continued and future use.

VII. STATEMENT RESPONSE CONSIDERATION:

The City of Duluth reserves the right to accept or reject any or all statements or proposals received if such action is deemed in the best interest of the District.

VIII. QUESTIONS:

Submit written questions to:

City of Duluth
Kathy Bergen, Manager of Parks and Recreation
Central Hillside Community Center
12 East Fourth Street
Duluth, MN 55802
218-730-4309
kbergen@duluthmn.gov

IX. STATEMENT/PROPOSAL DELIVERY:

Submit All Responses in Writing to:

City of Duluth
Kathy Bergen, Manager of Parks and Recreation
Central Hillside Community Center
12 East Fourth Street
Duluth, MN 55802
218-730-4309
kbergen@duluthmn.gov
