Meeting Agenda

• Background of Sales Tax Street Program
• Project Priority Setting – Why these streets?
• Project List and Maps – West, Central, & East
• Overview – Project Descriptions
• Project Schedule
• Traffic Control & Access During Construction
• Questions/Comments
Background of Sales Tax Streets Program

- 55% of the City of Duluth’s 450 miles of local streets are in “poor” condition
- The 1/2 Percent Sales Tax Program was passed in 2017 by Duluth’s voters
- It generates approximately $7 million/year for street preservation; this project uses about half
- 2019 – sales tax funding collection began
- 2020 - first year of sales tax projects
Project Priority Setting

• What do we consider in picking projects?
  • Pavement conditions
  • Coordination with Utility Needs (esp. Water)
  • Safe Routes to Schools (Plans)
  • Core Investment Areas (Imagine Duluth 2045 Plan)
  • Multi-Modal Needs (Pedestrian & Bike circulation)
  • Geographic Equity (City-wide project distribution)

• Deferred projects move to the top in the next year
# 2022 Street Preservation Projects - WEST
