Addendum 2
Solicitation 22-99349
Lakewalk Shoreline Rehabilitation Sites B and C

This addendum serves to notify all bidders of the following changes to the solicitation documents:

1. The federal wage decisions were recently updated. A new labor cost bidding data form and the updated applicable federal wage decisions are attached.
2. The state commercial wage rate is removed from the solicitation.
3. Truck rental rates are attached.
4. Questions and answers are provided in the attached AMI document.

Please acknowledge receipt of this Addendum by checking the acknowledgment box within the www.bidexpress.com solicitation.

LABOR COST BIDDING DATA

Solicitation No.: 22-99349
Project Title: Lakewalk Shoreline Rehabilitation Sites B & C

Funding sources for City of Duluth projects determine what wages and work hours are required. The project identified above includes the funding sources checked below.

- ☒ Federal funds - FEMA
- ☐ State funds
- ☒ City funds (25% Match)
- ☐ Other:

Per the Duluth City Code, prevailing wages must be paid on projects over \$2,000. The prevailing wage decisions included in this project are listed below. If multiple wage decisions cover the work, bidders are required to pay the higher wage:

1. Federal Heavy MN20220040 effective ~~2-25-22~~ 6/10/22
2. Federal Highway ~~MN20220144 effective 2-25-22~~ MN20220056, effective 5/27/22
3. State Highway and Heavy, Region 1, effective 11.15.21

This project will include a project labor agreement (PLA) if over \$150,000. Please note that union scale wages are not always higher than the prevailing wages required.

Overtime rate to be paid at no less than 1 ½ times the rate of pay, plus fringe, as established in the project's wage decision OR 1 ½ times the base rate the employee is being paid, plus fringe; whichever is higher. Overtime must be paid on:

- ☐ hours worked in excess of 8 hours per day (even if less than 40 hours worked in a week) and hours worked in excess of 40 hours per week
- ☐ hours worked in excess of 40 hours per week
- ☒ hours worked in excess of 8 hours per day and 40 hours per week, unless the bidder has an existing union labor agreement allowing different hours as prescribed in section 2-26 of the City Code.

"General Decision Number: MN20220040 06/10/2022

Superseded General Decision Number: MN20210040

State: Minnesota

Construction Type: Heavy

County: St Louis County in Minnesota.

HEAVY CONSTRUCTION PROJECTS

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	<ul style="list-style-type: none"> . Executive Order 14026 generally applies to the contract. . The contractor must pay all covered workers at least \$15.00 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2022.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	<ul style="list-style-type: none"> . Executive Order 13658 generally applies to the contract. . The contractor must pay all covered workers at least \$11.25 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2022.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at <https://www.dol.gov/agencies/whd/government-contracts>.

WELDERS - Receive rate prescribed for craft performing
operation to which welding is incidental.

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$15.00) or 13658 (\$11.25). Please see the Note at the top of the wage determination for more information.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor

200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION"

=====

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the

Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average

calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISIO"

COVID-19 resources here. | DLI offices are closed to walk-in customers.

PREVAILING WAGE: REGION 1 MINIMUM TRUCK RENTAL RATES

The operating costs were determined by survey on a statewide basis. The operating cost for “four or more axle units, straight-body trucks” is determined to be \$51.50 an hour. The operating cost for “three-axle units” is determined to be \$37.35 an hour. The operating cost for “tractor only” is determined to be \$54.96 an hour. The operating cost for “tractor trailers” is determined to be \$66.42 an hour.

Based on surveys reported to the department, the average broker fee paid in 2018 for a tractor was \$10.27 an hour and for a four or more axle unit, straight-body truck was \$6.81 an hour. The Department of Labor and Industry did not receive sufficient surveys for a three-axle unit or trailer and therefore, no broker fees were reported.

Adding the prevailing wage for drivers of these four types of trucks from each of the state’s 10 highway and heavy construction areas to the operating costs, the minimum hourly truck rental rate for the four types of trucks in each area is certified as follows:

Region 1 minimum hourly truck rental rates

Effective date	Tractor trailer	Four or more axle	Three axle	Tractor only
Dec. 27, 2021	\$121.52	\$81.26	\$91.80	\$110.06
Increase May 1, 2022	\$123.02	--	\$93.30	\$111.56

Re: Lakewalk Shoreline Rehab Sites B&C Pre-Bid Meeting Contractor Questions

AMI Project #211009

Participants: Ryan Dagger - AMI, Mike LeBeau - City of Duluth, Rob Hurd – City of Duluth, KTM, Veit, HMI, Rachel, Wren Works

QUESTIONS:

1. Despite efforts to remain open, how long can the trail be closed if closing is necessary?
 - a. Closures must be approved by the City (See C1.0.0 General Project Note #16). Closures will be approved on a case by case basis and subject to Lakewalk programming. Closures lasting longer than a day will require a minimum of 3 days advanced notice. It is the City's intent that the Lakewalk is open for the duration of the project.
2. Do the stones from the various offsite pile locations pass the necessary requirements?
 - a. After a visual inspection, the stones meet the quality requirements of the specifications. Each stone should still be visually inspected to prevent hauling of stones with large fractures or seams that could cause the stone to break during installation. Contractor shall notify the Engineer of any salvaged stones that appear to not meet the design standards in Specification 02 42 00, Part 1, Section 1.4 and 1.5.
 - b. Contractor shall perform drop tests on 3 armor or toe stones from each City location with the Engineer present.
 - c. Salvaged stones shall be weighed following the requirements of Specification 01 22 00 – Unit Prices
3. Specification 02 42 00 – Removal and Salvage of Construction Materials Photo 1 should read “Lakewood Water Treatment Plant”
4. Do the sources of stone have a priority order to go through?
 - a. As specified in Specification 02 42 00, Lakewood Water Treatment Plant is top priority, second is Lake Superior College, and third is Lot D for this project. Based on the quantity of stone required, each site will be used.
 - b. Lot D has a pile of stones salvaged from Canal Park. The Contractor is allowed to use 1,000 tons of stone from this pile as 2,000 tons of stone will be utilized for Marten Trail.
 - c. Lot D is currently having additional stones dumped at this location from a demolition of a nearby rock wall that can be used. The Contractor shall notify the Engineer when each pile location will be loaded.
5. Are drop tests the only requirements for the salvaged stones to be reused?
 - a. Visual inspections of the stones are required to determine if there are any obvious flaws and the drop test should be performed as stated in question #2.
6. Are contractors able to use the scales on their excavators/loaders?

- a. Certified scale tickets are required for payment. Excavator scales are allowed for helping determining armor stones vs toe stones.
- 7. Will there be work on both sides of the existing structure at site B?
 - a. Yes. Refer to sheet C2.0.0.
- 8. Will there be drilling or burying out past the existing structure, in the water?
 - a. Lakeside of the existing structure there will be no work performed. The stone will wrap around the landside of the existing structure.
- 9. Will it be a contractor's guess for how many holes that need to be drilled?
 - a. AMI estimated the depth of the bedrock along the shoreline and determined the number of toe stones that will require drilling. The contractor should anticipate this number to increase if bedrock remains too shallow to use one of the other toe stone anchoring methods.
- 10. Can the beach to the south of site B be used for contractor staging?
 - a. Yes, the beach can be utilized for staging, but the contractor must be aware of areas the public will use to access this area.
- 11. How will change orders be addressed?
 - a. Change orders will be addressed per the EJCDC documents.
- 12. Drilling two holes per stone?
 - a. Two holes per stone are required at a minimum, Contractor shall review sheet C2.2.0 for more information on stone anchorage.
- 13. If contractor were to barge in, what are the requirements in working from a barge?
 - a. Barge work is desired for this project, but the contractor should be aware bedrock depths near shore and be able to unload equipment on a nearby beach out of the water.
 - b. The Contractor shall not unload equipment from the barge into the water and must comply with the requirements in the DNR permit.
 - c. If significant plumes are being created a silt curtain may be required during periods of work in addition to the rock windrow.
- 14. How should the rock windrow be constructed?
 - a. Follow the detail shown in the plans for size requirements.
 - b. Only salvaged filter stone is allowed to be used in constructing the rock windrow. No armor stone or toe stones brought to the site can be used in constructing the rock windrow.
 - c. The contractor is required to maintain the minimum dimensions until the shoreline on the land side of the rockwindrow is complete.
