CITY of DULUTH
PROJECT SPECIFICATIONS

Chester Park Phase 1 Bridge and Placement of Existing Ski Trail Bridge

City of Duluth, MN
411 West 1st St.
Duluth, MN 55802

City Project #: 1171 / 1194
FEMA #: 305C / 305D

Bid # 12-0617

Opening Date: November 1, 2012
Time: 2:00 P.M.
Place: City Hall Room 207
CITY OF DULUTH
INVITATION TO BID (ENG)

PROJECT NAME/DESCRIPTION: Chester Park Phase 1 Bridge and Placement of Existing Ski Trail Bridge

PROJECT NUMBER: 1171 / 1194

BID NUMBER: 12-0617

Sealed bids will be received by the City Purchasing Agent in and for the Corporation of the City of Duluth, Minnesota, at his office, Room 100 City Hall, Duluth, Minnesota, 55802, (218) 730-5340 until 2:00 P.M. local time on November 1, 2012 for the above named project. Immediately thereafter, bids will be taken to room 207 City Hall, where they will be publicly opened and read aloud.

NOTICE TO BIDDERS:

1. A Project Labor Agreement (PLA) will be required for any bid that is over or could virtually go over $150,000.

2. Unless a Certificate of Exemption is provided, any out-of-state bidder receiving a bid award will have 8% retained from invoice payments on any contracts over $50,000. Submit a signed copy from the State of Minnesota when submitting Payment and Performance Bonds. This form may be found at the following web address: http://taxes.state.mn.us/Forms_and_Instructions/sde.pdf

This project consists of constructing a 30 foot by 35 foot ski trail bridge over Chester Creek, removing a 30 foot by 35 foot ski trail bridge over Chester Creek, constructing abutments for existing bridge and placement of exiting prefabricated bridge onto abutments, and site restoration.

Questions pertaining to this project should be directed to: Howard Smith, P.E., Project Engineer, 218-730-5092.

Each bidder must review the 2011 edition with the 2012 amendments of the City of Duluth Public Works/Utilities Department – Engineering Division Standard Construction Specifications on the city website (www.duluthmn.gov) as these Specifications are incorporated by reference and deemed to be a part hereof this project as if fully incorporated and set forth herein.

Plans and specifications may be downloaded from the City of Duluth Purchasing Department website free of charge.

Plans and specifications are on file for inspection at the City Engineering office, Duluth Builders Exchange, F.W. Dodge Plan Room, Minneapolis Builders Exchange and St. Paul Builders Exchange.

A non-mandatory pre-bid meeting will be October 29th, 2012 at 1:00 P.M., meeting location will be outside of the Chester Park ski chalet. This will be your best opportunity to visit the site and discuss the project with the Engineer.

A certified check or bank draft, payable to the order of the City of Duluth, negotiable U.S. Government Bonds (at par value), or a satisfactory bid bond executed by the bidder and acceptable surety, in an amount equal to five per cent (5%) of the total bid, shall be submitted with each bid.

Attention is called to the fact that not less than the minimum salaries and prevailing wages as set forth in the contract documents must be paid on this project. The contractor must take affirmative action to ensure that the employees and applicants for employment are not discriminated against because of their race, color, creed, sex or national origin, and must meet the affirmative action goals. Contractors are encouraged to subcontract with Disadvantaged Business Enterprises when possible.

Contractor will comply with all applicable Equal Employment Opportunity laws and regulations.

The City of Duluth is an Equal Opportunity employer.

Date posted to web: 10-18-12

CITY OF DULUTH
Dennis Sears
Purchasing Agent
City of Duluth Purchasing Division

General Specifications

This document is intended to serve the city of Duluth, its Agents and Authorities. Each authority may issue their own purchase order and will be responsible for it. The City of Duluth Authorities are as follows:

1. Duluth Airport Authority
2. Spirit Mountain Recreational Area Authority
3. Duluth Entertainment and Convention Center
4. Duluth Transit Authority
5. Duluth Economic Development Authority
6. Duluth Housing and Redevelopment Authority

The city has a cooperative purchasing agreement with St. Louis County allowing the county to purchase from this bid when requested. St. Louis county will issue and be responsible for its own purchase orders.

10. Qualifications of Bidder

The city may make such investigations as deemed necessary to determine the ability of the bidder to perform the work, and the bidder shall furnish to the city all such information and data for this purpose as the city may request. The city reserves the right to reject any bid if the evidence submitted by, or investigation of, such bidder fails to satisfy the city that such bidder is properly qualified to carry out the obligations of the contract and to complete the work contemplated therein. Conditonal bids will not be accepted.

11. Addenda and Interpretations

Responses to general questions and clarifications of bids may be made at the discretion of the city. However, no interpretation of the meaning of the specifications or other pre-bid documents will be made to any bidder orally.

Every request for such interpretation should be in writing and delivered or sent by facsimile to the city purchasing agent or the buyer shown on the bid request, Duluth, Minnesota 55802, and to be given consideration must be submitted at least five days prior to the date fixed for the opening of bids.

12. Award of Contract - Rejection of Bids:

In determining the successful bidder, there will be considered in addition to price (per Ordinance 7050): A. The ability, capacity and skill of the bidder to perform the contract. B. The character, integrity, reputation, judgement, experience and efficiency of the bidder. C. The quality of performance of previous contracts. D. The sufficiency of the financial resources, equipment available and ability of the bidder to perform the contract.

13. Quantities:

The city reserves the right to increase or decrease the quantities of items on this bid as required. Any exception to this provision must be noted by the vendor in its bid or proposal.

14. Wages and Salaries:

A. Attention of bidders is particularly called to the requirements concerning the payment of not less than the prevailing wage and salary rates specified in the contract documents and the conditions of employment with respect to certain categories and classifications of employees for all "Public Works" type projects estimated to exceed $2,000.
### IMPORTANT NOTICE TO BIDDER

On the envelope submitting your bid, it is imperative:

1. That your name and address appear in the UPPER left corner.
2. That the bottom portion of this label be filled in and pasted on the LOWER left corner.

AFFIDAVIT AND INFORMATION REQUIRED OF BIDDERS

Affidavit of Non-Collusion:

I hereby swear (or affirm) under penalty of perjury:

1) That I am the bidder (if the bidder is an individual), a partner in the bidder (if the bidder is a partnership), or an officer or employee of the bidding corporation having authority to sign on its behalf (if the bidder is a corporation);

2) That the attached bid or bids have been arrived at by the bidder independently and have been submitted without collusion with and without agreement, understanding, or planned common course of action with any other vendor or materials, supplied, equipment or services described in the invitation to bid, designed to limit independent bidding or competition;

3) That the contents of the bid or bids have not been communicated by the bidder or its employees or agents to any person not an employee or agent of the bidder or its surety on any bond furnished with the bid or bids and will not be communicated to any such person prior to the official opening of the bid or bids; and

4) That I have fully informed myself regarding the accuracy of the statements made in this affidavit.

EQUAL EMPLOYMENT OPPORTUNITY (EEO) AFFIRMATIVE ACTION
POLICY STATEMENT & COMPLIANCE CERTIFICATE

TO: City of Duluth, Minnesota PROJECT NUMBER & DESCRIPTION

FROM: ____________________________________________

(FIRM’s name, address, telephone number)

A) Employment: It is the policy of the above named FIRM to afford equal opportunity for employment to all individuals regardless of race, color, creed, religion, national origin, ancestry, age, sex, marital status, status with respect to public assistance and/or disability. The FIRM will take affirmative action to ensure that we will: (1) recruit, hire, and promote all job classifications without regard to race, color, creed, religion, national origin, ancestry, age, sex, marital status, status with respect to public assistance, and/or disability, except where sex is a bona fide occupational qualification; (2) base decisions on employment so as to further the principle of equal employment opportunity; (3) ensure that promotion decisions are in accord with the principles of equal employment opportunity by imposing only valid requirements for promotional opportunities; (4) ensure that all personnel actions such as compensation, benefits, transfers, layoffs, return from layoff, FIRM sponsored training, education tuition assistance, social and recreational programs will be administered without regard to race, color, creed, religion, national origin, ancestry, age, sex, marital status, status with respect to public assistance, and/or disability. The FIRM also intends full compliance with Veteran affirmative action requirements. Additionally, minority and female employees shall be encouraged to participate in all FIRM activities and refer applicants.

I have designated (name) ____________________________________________ to direct the establishment of and to monitor the implementation of personnel procedures to guide the FIRM’s affirmative action program. Where PROJECTS exceed $500,000, this official shall also serve as the liaison officer that administers the FIRM’s “Minority Business Enterprise Program.” This official is charged with designing and implementing audit and reporting systems that will keep management informed on a monthly basis of the status of the equal opportunity area.

Supervisors have been made to understand that their work performance is being evaluated on the basis of their equal opportunity efforts and results, as well as other criteria. It shall be the responsibility of the FIRM and its supervisors to take actions to prevent harassment of employees placed through affirmative action efforts.

B) Reports: Unless exempted by law and regulation, the FIRM shall make available and file those reports related to equal opportunity as may be required by the City of Duluth and State and Federal compliance agencies. Requirements and Reports are defined in 41CFR60 “Compliance Responsibility for Equal Opportunity” published by the U. S. Department of Labor which is incorporated herein by reference. Additional requirements are defined in various State and Federal Civil Rights Legislation and Rules promulgated thereunder.

C) Nonsegregated Facilities: The FIRM certifies that it does not maintain or provide for its employees any segregated facilities at any of its establishments and that it does not permit its employees to perform their services at any location, under its control, where segregated facilities are maintained. The FIRM certifies that it will not maintain or provide for its employees any segregated facilities at any of its establishments and that it will not permit its employees to perform their services at any location, under its control, where segregated facilities are maintained. The FIRM agrees that a breach of this
certification is a violation of the Equal Opportunity Clause in this certificate. As used in this Certification, the term “segregated facilities” means any waiting rooms, work area, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation for entertainment area, transportation, and housing facilities provided for employees which are segregated by explicit directive or are, in fact, segregated on the basis of race, color, religion, or national origin, because of habit, local custom, or otherwise.

D) **Affirmative Action Compliance Program:** Unless exempted by regulation and law, the FIRM—if the FIRM has 50 or more employees and if the value of current contracts with the City of Duluth exceeds $50,000—shall prepare and maintain a written affirmative action compliance program that meets the requirement as set forth in 41CFR60.

E) **Non-Compliance:** The FIRM certifies that it is not currently in receipt of any outstanding letters of deficiencies, show cause, probable cause, or other such notification of non-compliance with EEO Laws and Regulations.

F) **Employment Goals - “Construction” Projects:** It shall be the goal of the FIRM if the PROJECT is of a construction nature that in all on-site employment generated that no less than 3% of the on-site workforce will be minority employees and that no less than 7% of the on-site workforce will be female employees. Further, it is the goal of the FIRM if the PROJECT is of a construction nature that in all on-site employment generated that no less than 3% of the work hours generated shall be worked by minority employees and that no less than 7% of the work hours generated shall be worked by female employees.

G) **Subcontractors:** The FIRM will for all its PROJECT subcontractors regardless of tier (unless exempted by law and regulation) that received in excess of $2,500 require that: (1) the subcontractor shall execute an “EEO Statement and Certification” similar in nature to this “Statement and Certification”, (2) said documentation to be maintained on file with the FIRM or subcontractor as may be appropriate.

Executed this ______ day of _____________, 20__ by:

NOTICE TO ALL BIDDERS:

SP-1

SCOPE OF WORK
This work provides for construction of a bridge over Chester Creek and erection of a pedestrian bridge in Duluth, Minnesota. The work consists of common excavation, abutment construction, construction of bridge, and placement of an existing bridge on new abutments.

The City of Duluth is the Owner of this project.

The Contractor will become a co-permittee with the City of Duluth on the NPDES II Storm Water Permit.

SP-2

(1806) DETERMINATION AND EXTENSION OF CONTRACT TIME
The Contract Time will be determined in accordance with the provisions of Mn/DOT 1806 and the following:

SP-2.1
Construction operations shall be started on or before November 12, 2012 or within ten (10) calendar days after the date of award by City Council resolution, whichever is later; however, the Notice to Proceed letter will be the official authorization to commence construction operations.

SP-2.2
All work required under this Contract shall be completed by December 14, 2012.

SP-2.3
The provisions of Mn/DOT 1806.1C(3) are modified to the extent that the phrase “during the inclusive period from November 15 to April 15,” is deleted. A similar phrase set forth in the second paragraph of Mn/DOT 1807.2 is also deleted.

SP-2.4
No work which will restrict or interfere with traffic shall be performed between 12:00 noon on the day preceding and 6:30 a.m. on the day following any consecutive combination of a Saturday, Sunday, and legal holiday without written permission from the Engineer. If the Contractor chooses not to work at all on the day preceding the holiday period, no working day charges will be assessed. If the Contractor chooses to work prior to 12:00 noon on the day preceding the holiday period or if the Contractor obtains written permission to work after 12:00 noon on the day preceding the holiday period, working day charges will be assessed only for the actual hours worked.

SP-2.5
When all, or a portion, of the Contract Time is specified as a calendar completion date, as provided in Mn/DOT 1103, the time is presumed to have been determined by considering the Proposal quantities, normal weather for the locality and season of the year, and the necessity of having the work completed by the specified date. The time may be extended by the Engineer only in accordance with the following:

When the Contract Time is specified as a fixed calendar completion date, any time extensions granted must be justified on the basis of unavoidable delay in starting or completing the progress controlling operations, and then, only when and to the extent that it is shown that delay time could not be overcome and the work brought back on schedule through reasonable adjustments in the Progress Schedule. Provided the Contractor has made all reasonable efforts to maintain an adequate and acceptable Progress Schedule, the specified completion date may be extended as the Engineer determines to be justified, for any of the following reasons:

1) Delays caused by failure of the City Council to award the Contract at least 10 calendar days in advance of the latest date specified for beginning construction operations.

2) Delays caused by an earthquake, flood, cloudburst, cyclone, tornado, or other cataclysmic phenomenon of a nature beyond the power of the Contractor to foresee and make preparations in defense against.

3) Delays caused by acts of the Government or a political subdivision, or by acts of the public enemy, including fires, epidemics, and strikes not caused by improper acts or omissions of the Contractor.

4) Delays caused by an action or non-action of the Department, such as suspension of work by order of the Engineer through no fault on the Contractor.

5) Delays caused in incompletion of work being done by other Contractors or utility owners, or due to other unforeseeable interferences not the fault of the Contractor.
6) Delays direction attributable to the performances of Extra Work or increased quantities or work.
7) Extraordinary delays in delivery or materials, resulting from strikes, lockouts, freight embargoes, governmental acts, or sudden disaster, or a nature beyond the power of the Contractor or his/her supplier to foresee and forestall.

Delays caused by plant and equipment failure, and delays due to unsuitable weather or conditions resulting therefrom, will not be allowed as justification for time extension except when and only to the extent the Engineer considers justified in view of unavoidable circumstances or events. Normal weather delays and the usual plant and equipment failures must be allowed for establishing work schedules. An extension of time may be granted for such delays as are considered to be in excess of the normal, but only when it is shown that the lost time would not reasonably be made up through acceleration of the remaining work. Failure to prosecute the work continuously and effectively for the full time allowed, with adequate work force and schedule, will be cause for denial of any such time extension that may otherwise be allowed.

SP-3 (1903) INCREASED OR DECREASED QUANTITIES
The provisions of Mn/DOT 1903 regarding overruns and underruns shall not apply to the following items of work under the Contract:

2100.601 Phase 1 Bridge
2100.601 Erect Pedestrian Bridge (Superstructure)

SP-4 (2100) PHASE 1 BRIDGE

SP-4.1 Description
This work shall consist of furnishing and installing all material, labor and equipment necessary for fabricating, constructing, transporting, and erecting the Phase 1 Bridge as directed by the engineer.

SP-4.2 Design
The bridge shall be provided by the contractor and sealed by a Minnesota licensed Professional Engineer.

The bridge shall be a minimum of 35 feet of clear span length and 30 feet of clear width between railing and curbs. The bridge shall be designed to carry the dead load of the structure and a live load of the greater of 85 psf or a concentrated load for an AASHTO H-10 (20,000 lb) vehicle, PLUS an additional uniform live load of 30 psf for compacted snow. The bridge shall have a wood decking placed with no gaps between planks. A railing with a minimum height of 60 inches above the deck shall be provided on both sides of the bridge deck and be capable of handling a concentrated load of 200 placed horizontally or vertically at any location. Maximum openings shall be such that a 4 inch diameter sphere will not pass through. A 6 inch high toe plate or curb shall be provided to allow for retaining of snow storage on bridge deck. Abutments capable of supporting the bridge superstructure dead and live loads and retaining the approach embankment shall be constructed on both ends of the bridge as shown in Sheet 3 of the Plans.

SP-4.3 Materials
Used materials, except for anchor bolts, hardware for timber construction, and high strength bolts, may be incorporated into the construction of the bridge provided those materials are in sound condition and suitable for their intended purpose. The bridge beams or stringers and the abutments shall be steel or timber. All bridge materials will be subject of engineer's approval in field.

SP-4.4 Construction Requirements
The bridge shall be constructed at the location and elevation directed by the engineer. The bridge shall be in place by December 14, 2012.

The contractor shall excavate on the east side of the proposed bridge to allow for abutment construction and placement.

The standard criteria for frost protection of abutments will be waived for the construction of the bridge. Abutments shall be placed on competent soil capable of supporting the applied load.

SP-4.5 Method of Measurement
Measurement will be by the Lump Sum.
SP-4.6 Basis of Payment
This work will be paid for at the contract unit price per Lump Sum for PHASE 1 BRIDGE which shall be compensation in full for all costs incidental thereto, including but not limited to, all materials and labor necessary to install proposed bridge.

SP-5 (2100) ERECT PEDESTRIAN BRIDGE SUPERSTRUCTURE

SP5.1 Description
This work shall consist of furnishing and installing all material, labor and equipment necessary for relocating and erecting the existing pedestrian bridge superstructure (steel truss and timber deck) from the location near the new site to the new abutments. See Sheet 4 of the Plans for location.

SP-5.2 Construction Requirements
The relocation and erection of the existing superstructure and providing and placing of anchor bolts onto the new abutments shall be performed by the contractor. The existing superstructure is located within 20 feet of the location of the new bridge alignment. This superstructure is comprised of steel truss and a wooden deck.

The existing truss is located near the location of the proposed site of the bridge and may need to be temporarily relocated to facilitate construction of the new abutments. The existing concrete slab/abutments shall be removed and disposed of by the contractor. The bolts that anchor the truss to the slab/abutment may be salvaged for use in the new abutments provided that the condition of the bolts and hardware not damaged and of a condition acceptable to the engineer.

The contractor shall excavate and backfill to allow for abutment construction and placement.

The contractor shall shape slopes and place riprap to restore the channel embankment at the abutments.

The contractor shall place Class V to construct a connection from the existing trail to the new bridge.

The existing truss shall be lifted at the truss panel point locations shown in the attached Contech Bridge Installation and Lifting Instructions. Contractor is to prevent damage to the truss during relocation and erection. The contractor is to identify and previous truss damage to the engineer prior to relocating or erecting the truss.

SP-5.3 Method of Measurement
Measurement will be by the Lump Sum under item "Erect Pedestrian Bridge (Superstructure)."

SP-5.4 Basis of Payment
This work will be paid for at the contract unit price per Lump Sum for Erect Pedestrian Bridge (Superstructure) which shall be compensation in full for all costs incidental thereto, including but not limited to, all materials and labor necessary to install and anchor the existing truss structure on the new abutments.

SP-6 (2104) REMOVE PHASE 1 BRIDGE

SP-6.1 Description
This work shall consist of furnishing all material, labor and equipment necessary for the complete removal of the Phase 1 Bridge, abutments, and restoration.

SP-6.2 Construction Requirements
All bridge and abutment materials will be removed and disposed of by the Contractor.

The contractor shall have the Phase 1 Bridge removed and disposed of completely from the site by March 7, 2013.

The contractor shall restore the bituminous parking lot and stabilize and restore the slope on the east side of the bridge upon removal of the east abutment.

SP-6.3 Method of Measurement
Measurement will be by the Lump Sum.

SP-6.4 Basis of Payment
This work will be paid for at the contract unit price per Lump Sum for Remove Phase 1 Bridge (Superstructure) which shall be compensation in full for all costs, including all materials, labor, and equipment necessary to remove bridge.
SP-7  (2563) TRAFFIC CONTROL
This project shall maintain access to all Chester Park facilities, streets, and parking lots, and must be maintained at all times. Upon completion of the project, all lanes of traffic shall be restored and opened for traffic. Contractor to be responsible for removing contractor installed devices.

All traffic control devices shall conform and be installed in accordance to the "Minnesota Manual on Uniform Traffic Control Devices" (MN MUTCD) and Part 6, "Field Manual for Temporary Traffic Control Zone Layouts", the "Guide to Establishing Speed Limits in Highway Work Zones", the Minnesota Flagging Handbook, the provisions of MnDOT 1404 and 1710, the Minnesota Standard Signs Manual, the Traffic Engineering Manual, the Traffic Control currently in-place, and these Special Provisions.

The Contractor shall furnish, install, maintain, and remove all traffic control devices required to provide safe movement of vehicular traffic through the Project during the life of the Contract from the start of Contract operations to the final completion thereof. The Engineer will have the right to modify the requirements for traffic control as deemed necessary due to existing field conditions. The highways shall be kept open to traffic at all times, except as modified below.

Traffic control devices include, but are not limited to, barricades, warning signs, trailers, flashers, cones, and drums, as required and sufficient barricade weights to maintain barricade stability.

The Contractor is advised of the changes to the Prevailing Wage Coverage as noted in the Notice to Bidders – Traffic Control Prevailing Wage Coverage contained in the front of this Proposal.

SP-8  (2573) TEMPORARY ROCK CONSTRUCTION ENTRANCE
This work consists of construction and maintenance of a rock construction entrance as shown on the plans. The purpose of this entrance is to prevent appreciable soil tracking onto public roadways for the duration of the Project. The location of each entrance shall be approved by the Engineer prior to construction.

SP-8.1 Basis of Payment
This work shall be paid for by the each as follows:

Upon Construction  50%
Upon Project Completion  50%

SP-9  (2573) EROSION CONTROL SUPERVISOR
Section 2573.4S is deleted and replaced with the following:

SP-9.1 Erosion Control Supervisor
Providing the Erosion Control Supervisor for this Contract shall be considered incidental work for which no direct payment will be made.
City of Duluth
CERTIFIED PAYROLL CHECKLIST
[State of MN & Federal funded projects  rev 4/5/11]
www.duluthmn.gov/engineering/construction_documents.cfm

For ease of communication, the e-mail address of the person responsible for certified payroll reports (CPRs) is necessary from the prime contractor and all subcontractors.
Please reply to the e-mail address in item #20.

1) Contractor’s name and address must appear on the top line of each certified payroll report (CPR).

2) City project number, name, and location must appear on each weekly CPR AND the Statement of Compliance.

3) CPRs must be numbered sequentially; for example, #1, #2, #3, etc.
   • Should the prime contractor or any subcontractor NOT perform work on a project for one or several weeks, DO NOT submit any CPRs at all. When work resumes, mark the CPR with the next sequential number.
   • Should a project continue into another year, continue with the same number sequence.

4) Each employee’s complete address and the last four digits of the social security number must be on the first CPR his/her name appears; subsequent CPRs need only show the name.
   • Hours of work must clearly correspond with the appropriate dates; overtime hours listed separately.

5) CLASSIFICATION and CODE NUMBERS
   Each employee’s classification title, group number, and code number must be indicated on each CPR using the State of Minnesota Master Job Classification listing.
   • NOTE that the U S DOL prevailing wage schedules DO NOT match the State of Minnesota’s for every classification—use caution when applying these code and group numbers.
   • A listing of simply “operator” or “laborer” or “driver,” etc. will not be accepted.
   » CPRs will be returned for correction and monthly projects payments could be delayed.
   • Employees who work in more than one classification must have the hours spent in each classification clearly indicated on separate lines with the appropriate wage.
   • Web site: https://www.revisor.mn.gov/rules/?id=5200/1100

6) The U S DOL form WH-347 may be used for preparing the actual certified payroll report.
   • web site: http://www.dol.gov/whd/wh347.pdf
   Any other form or software may be used as long as it mirrors the format of the report above.

7) Total Pay Package
   • The total pay package—base rate plus fringe benefits—must be equal to or greater than that established in the project prevailing wage schedules or the project labor agreement (PLA), if the project is subject to one.
   » An employer may pay a lower hourly rate and higher fringe benefit rate than stated in the project’s wage decision for regular time PROVIDING the total is equal to or greater than that of the wage decision— overtime must be applied to the higher prevailing wage in the project’s wage decision.

   • The overtime rate must be paid at NO LESS than the rate of pay as established in the project’s wage
   decision multiplied by one and one-half half OR the base rate the employee is being paid if it is
   higher than the wage decision base rate.

   • The U.S. DOL Statement of Compliance [on the reverse side of the WH-347 payroll form] must be used
   in addition to the MnDOT Prime Contractor-Subcontractor’s Statement of Compliance (12/2010);
   the second page must be completed in full regarding the fringe benefits.
   • web sites: http://www.dol.gov/whd/wh347.pdf (page two)
   http://dot.state.mn.us/const/labor/forms.html
• The fringe benefit package is an integral portion of the prevailing wage. Should the prime contractor or any subcontractor (regardless of tier) become delinquent with any fringe benefit plan administrator’s requirements for monthly payment, an estimated amount due that plan plus penalties may be withheld from the monthly estimate(s) OR the entire monthly estimates(s) may be withheld. See item #10.

8) Other Deductions
• “Other Deductions” must be identified; for example: garnishment, alimony, child support, other court ordered deductions, specific fringe benefits, etc. Copies of these documents must be submitted with the first certified payroll report the deduction appears OR an involuntary deduction form must be included with the first certified payroll report the deduction appears.
• Voluntary deductions must be clearly marked as to the type: medical, life insurance, 401K, loan payment, etc. A copy of the employee’s signed authorization for the voluntary deduction(s) must be included with the first certified payroll the deduction appears.
• Union dues, union vacation pay, etc. do not need an authorization form; however, those deductions must be clearly marked on the CPR and the Statement of Compliance which accompanies each CPR. web site: www.duluthmn.gov/engineering/construction_documents.cfm

9) Apprentices
• Apprentices must be clearly identified on each certified payroll.
• A copy of the official state-approved apprenticeship agreement ALONG WITH the ratio language for that particular trade must be included with the first certified payroll report the apprentice appears.
• Failure to complete the complete apprenticeship papers may result in a delay of project payments.

10) Fringe Benefits
• Only plans approved by the U.S. Department of Labor will be allowed.
• Payments made to bonafide plans must be timely per the stipulations of the plan administrator.
• Delinquent payments may result in a delay of monthly estimates or an estimated dollar amount due deducted from the monthly estimate. MnDOT 1906 Partial Payments will be implemented.

11) Trucking Operations
• CPRs are required from ALL multiple truck operations (MTOs), partnerships, and corporations which have workers on a city of Duluth construction project.
• CPRs are required from MTOs, partnerships, and corporations who have a contract with a broker and use their own employees or themselves (in a partnership or corporation) on a city of Duluth construction project.
  » Each partner performing work on a project must submit a copy of his/her commercial driver’s license (CDL), cab card, and insurance certificate for the truck being operated with that weekly CPR. It is not necessary to repeat such supporting documentation until a different truck is used and/or certificates have expired.
• Independent truck operators (ITOs) must submit copies of their CDL, cab card, and insurance certificate for each truck being operated before commencing work on the construction project. These documents must be sent to the prime contractor who will, then, forward the material to Labor Compliance Specialist. No CPRs are required.

12) Month End Trucking Reports
MnDOT’s Month-End Trucking Report must be submitted within five working days of the month ending to Labor Compliance Specialist. web site: www.dot.state.mn.us/const/labor/forms.html

13) Owners/Salaried Persons
City Ordinance 8940, 6/18/85 defines a laborer, mechanic: all persons utilized, employed, or working on a project who are doing work usually done by mechanics and laborers, including proprietors, partners, and members of cooperatives.
• This means that all persons working on a City of Duluth project including owners, partners, salaried person, working foremen, etc. performing laborer and/or mechanic work shall be reported on the certified payroll reports including all data required of any laborer or mechanic.
14) **Base Workweek**
The base workweek is five 8-hour days. Daily overtime must be paid on hours exceeding eight per day.

15) **Overtime**
On this project, time and one-half the regular hourly rate is paid for hours exceeding eight per day / all hours after 40 per week.
- An employer may not withhold overtime payment exclusively until 40 hours per week are satisfied. Daily overtime must be paid as it is earned due the State of MN funding.

16) **Originals**
ORIGINAL certified payroll reports must be submitted WEEKLY. The prime contractor is responsible for all subcontractors' certified payroll reports.
- FAXED certified payroll reports WILL NOT be accepted.
- QUICKEN BOOK users will need to provide data in a format as the WH-347 payroll form.
  (See web site in item #6)

17) **Statement of Compliance**
BOTH the U.S. DOL Statement of Compliance and the MnDOT Prime Contractor-Subcontractor's Statement of Compliance (12/2010) must be completed in full and attached to each weekly certified payroll report.
- [www.dot.state.mn.us/const/labor/forms.html](http://www.dot.state.mn.us/const/labor/forms.html) MnDOT
  - Check box A or B for fringe benefit allocation (on the front side of the MnDOT form).
  - The back side of the MnDOT form requires the amount paid by classification and category plus the name, address, etc. of the fringe benefit plans.
  - Any employee who has an exception to the fringe benefits must be explained in section "C."
  - For fringe benefits paid in cash:
    - indicate this in section "C"
    - the fringe amount will be added to the employee's regular hourly rate; this total amount will appear on the certified payroll report and is subject to all payroll taxes
      - overtime is calculated at one and one-half the regular hourly rate [see #6 above] plus the fringe benefit amount
  - A handwritten—original—signature must appear on the back side.

18) **EEO Reports are required on this project**
- Use the MnDOT EEO-13 form. Web site: [http://www.dot.state.mn.us/civilrights/forms.html](http://www.dot.state.mn.us/civilrights/forms.html)
- See the project's specifications/contract for specifics.
- Submit the monthly reports to the Labor Compliance Specialist in item #20

19) **IC-134**
Form IC-134, Withholding Affidavit for Contractors must be submitted before the full retainage can be released.
- on-line: [www.mndot.state.mn.us](http://www.mndot.state.mn.us) lower right side of screen, click: Submit Contractor Affidavit
- hard copies: [www.taxes.state.mn.us/Forms_and_Instructions/ic134.pdf](http://www.taxes.state.mn.us/Forms_and_Instructions/ic134.pdf)

20) **Send weekly original certified payroll reports and EEO reports to:**
- direct: 218/730-5089 Anna McQuade
  - fax: 218/730-5907 City of Duluth
  - City Hall
  - 211 City Hall
  - 411 West 1st St
  - Duluth, MN 55802-1191

**Note to subcontractors:** the original certified payroll reports must be submitted to the prime contractor. The prime contractor will make a copy for its records and send the originals to the address in item #20.
DATA FOR LABOR COST BIDDING

NOTE:
Wage Decisions are subject to change due to lock-in rules and revisions near the bid opening.

Project No.: 1171 / 1194

Name: Chester Park Phase 1 Bridge and Placement of Existing Ski Trail Bridge

This project is funded by:

State of Minnesota with federal funding

The base workweek:

Five 8-hour days--OT on daily hours exceeding eight / OT on all hours after 40 per week

The project DOES NOT contain a project labor agreement (PLA).

Should a project contain a project labor agreement:

1) Union scale may not be reflected in the prevailing wage schedule(s)
2) Note Article II Section 10 for trucking labor costs

OVERTIME REQUIREMENTS:

Overtime must be paid on hours worked in excess of eight hours per day. Contractors (including sub-contractors) are not allowed to pay overtime solely on hours in excess of forty per week.

The overtime rate must be paid at NO LESS than the rate of pay as established in the project’s wage decision multiplied by one and one-half OR the base rate the employee is being paid if it is higher than the wage decision base rate.

Project Prevailing Wage Decision: U S DOL Heavy 8/3/12
State of Minnesota Region 1 Highway-Heavy 9/10/12
State of Minnesota Truck Rental Rates 7/25/12
City of Duluth Public Works/Utilities - Engineering
06/02/10

INSTRUCTIONS TO BIDDERS

1) **Use of Separate Bid Forms**  These contract documents include a complete set of bidding and contract forms which are for the convenience of bidders and are not to be detached from the contract document, completed, or executed. **Separate copies of bid forms are furnished for that purpose.**

2) **Interpretations or Addenda**  No oral interpretation will be made to any bidder as to the meaning of the contract documents or any part thereof. Every request for such an interpretation shall be made in writing to the city of Duluth. Any inquiry received seven or more days prior to the data fixed for opening of bids will be given consideration. Every interpretation made to a bidder will be in the form of an addendum to the contract documents, and when issued, will be on file in the office of the city engineer at least five days before bids are opened. In addition, all addenda will be mailed to each person holding contract documents, but it shall be the bidder's responsibility to make inquiry as to the addenda issued. All such addenda shall become part of the contract and all bidders shall be bound by such addenda, whether or not received by the bidders.

3) **Inspection of Site**  Each bidder should visit the site of the proposed work and fully acquaint himself with the existing conditions there relating to construction and labor, and should fully inform himself as to the facilities involved, the difficulties, and the restrictions attending the performance of the contract. The bidder shall thoroughly examine and familiarize himself with the drawings, technical specifications, and all other contract documents. The contractor, by the execution of the contract, shall in no way be relieved of any obligation under it due to his failure to receive or examine any form or legal instrument or to visit the site and acquaint himself with the conditions there existing; the city of Duluth will be justified in rejecting any claim based on facts regarding which he should have been on notice as a result thereof.

4) **Alternative Bids**  No alternative bids or bid items will be considered unless alternative bids are specifically requested by the technical specifications.

5) **Bids**
   a) All bids must be submitted on forms supplied by the city engineer and shall be subject to all requirements of the contract documents, including the drawings, and these **Instructions to Bidders**. All bids must be regular in every respect; no interlineations, excisions, or special conditions shall be made or included in the bid form by the bidder.
   b) Bid documents, including the bid and the bid guaranty, shall be enclosed in an envelope which shall be sealed and clearly labeled with the project number, if any, name of bidder, and date and time of bid opening, in order to guard against premature opening of the bid. If the proposal is mailed, this envelope shall be placed in another envelope which shall be sealed and labeled with project number, if any, name of bidder, and date and time of bid opening -- and addressed to city of Duluth purchasing manager, 100 City Hall, Duluth, Minnesota 55802.
   c) The city of Duluth may consider as irregular any bid on which there is an alteration of or departure from the bid form hereto attached and, at its option, may reject the same.
   d) If the project is awarded, it will be awarded by the city of Duluth to the lowest responsible bidder assuming that the bids are within funds available based on the lowest base bid and or in combination with selected alternates (if any). The alternates will be accepted in descending order. By the award of the contract, it is assumed that the work will be completed within the time-frame as specified within the contract documents.
   e) Each bidder shall include in his bid the following information:
      Principals – names, home addresses including city, state, and zip code
      Firm – name, federal i.d. number, address, city, state, and zip code
      Mechanical & Electrical Subcontractors -- names of firms that will do the mechanical and electrical work and the amounts of the mechanical and electrical sub-bids, if applicable and when (where indicated on Bid Proposal form).

6) **Bid Guaranty**
   a) The bid must be accompanied by a bid guaranty which shall not be less than five percent (5%) of the amount of the bid. At the option of the bidder, the guaranty may be a certified check, bank draft, negotiable U.S. Government bond (at par value), or a bid bond. No bid will be considered unless it is accompanied by the required guaranty. Certified check or bank draft must be made payable to the order of the city of Duluth, Minnesota. Cash deposits will not be accepted. The bid guaranty shall insure the execution of the agreement and the furnishing of the surety bond or bonds by the successful bidder, all as required by the contract documents.
b) Revised bids submitted before the opening of bids, whether forwarded by mail, fax, or in person, if representing an increase in excess of two percent (2%) of the original bid, must have bid guaranty adjusted accordingly; otherwise, the bid will not be considered.

c) Certified checks or bank drafts, or the amount thereof, bid bonds, and negotiable U.S. Government bonds of unsuccessful bidders, will be returned as soon as practical after the opening of bids.

7) Collusive Agreements

a) The successful bidder on each city of Duluth construction project shall be required to execute a city of Duluth non-collusive affidavit to the effect that he has not entered into a collusive agreement with any other person, firm, or corporation in regard to any bid submitted.

b) Before executing any subcontract, the successful bidder shall submit the name of any proposed subcontractor for prior approval on the MnDOT Request to Sublet Form (Standard Specification 1801) TP-21834 (5/18/2007).

8) Unit Prices The unit price, for each of the several items in the proposal of each bidder, shall include its prorata share of overhead so that the sum of the products obtained by multiplying the quantity shown for each item by the unit price bid represents the total bid. Any bid not conforming to this requirement may be rejected as informal. The special attention of all bidders is called to this provision; for should conditions make it necessary to revise the quantities, no limit will be fixed for such increased or decreased quantities nor extra compensation allowed, provided the net monetary value of all such additive and subtractive changes in quantities of such items of work (i.e., difference in cost) shall not increase or decrease the original contract price by more than twenty-five percent (25%), except for work not covered in the drawings and technical specifications.

9) Corrections Erasures or other changes in the bids must be explained or noted over the signature of the bidder.

10) Time for Receiving Bids

a) Bids received prior to the advertised hour of opening will be securely kept, sealed. The officer, whose duty it is to open them, will decide when the specified time has arrived and no bid received thereafter will be considered; except that when a bid arrives by mail after the time fixed for opening, but before the reading of all other bids is completed, and it is shown to the satisfaction of the city purchasing office that the non-arrival on time was due solely to delay in the mails for which the bidder was not responsible, such bid will be received and considered.

b) Bidders are cautioned that, while fax modifications of bids may be received as provided above, such modifications, if not explicit and if in any sense subject to misinterpretation, shall make the bid so modified or amended, subject to rejection.

11) Opening of Bids At the time and place fixed for the opening of bids, the city purchasing manager will cause to be opened and publicly read aloud every bid received within the time set for receiving bids, irrespective of any irregularities therein. Bidders and other persons properly interested may be present in person or by representative.

12) Withdrawal of Bids Bids may be withdrawn on written or faxed request dispatched by the bidder in time for delivery in the normal course of business to the time fixed for opening; provided, that written confirmation of any faxed withdrawal over the signature of the bidder is placed in the mail and postmarked prior to the time set for bid opening. The bid guaranty of any bidder withdrawing his bid in accordance with the foregoing conditions will be returned promptly.

13) Award of Contract: Rejection of Bids

a) The contract will be awarded to the responsible bidder submitting the lowest bid complying with the conditions of the Invitation to Bid. The bidder, to whom the award is made, will be notified at the earliest possible date. The city of Duluth, however, reserves the right to reject any and all such bids and to waive any informality in bids received whenever such rejection or waiver is in its interest.

b) The city of Duluth reserves the right to consider as unqualified to do the work of general construction, any bidder who does not habitually perform with his own forces the major portions of the work involved in construction of the improvements embraced in the contract documents. A project labor agreement will be included in all contracts exceeding $150,000.
14) Execution of Agreement: Performance and Payment Bond.

a) Subsequent to the award and within ten (10) days after the prescribed forms are presented for signature, the successful bidder shall execute and deliver to the city of Duluth an agreement in the form as furnished by the City, in such number of copies as the city of Duluth may require.

b) Having satisfied all conditions of award as set forth elsewhere in these documents, the successful bidder shall, within the period specified in paragraph "a" above, furnish:

1) A performance bond for the use and benefit of the city of Duluth to complete the contract according to its terms, and conditioned on saving the city of Duluth harmless from all costs and charges that may accrue on account of completing the specified work; and

2) A payment bond for the use and benefit of all persons furnishing labor and materials for the performance of the contract conditioned upon the payment, as they become due, of all just claims for labor and materials. Both the performance bond and the payment bond shall be in a penal sum of not less than the amount of the contract awarded. Such bonds shall be in the same form as that included in the contract documents and shall bear the same date as, or a date subsequent to, that of the agreement. A current power of attorney for the person who signs for any surety company shall be attached to such bonds.

c) The failure of the successful bidder to execute such agreement to supply the required bond or bonds within ten (10) days after the prescribed forms are presented for signature, or within such extended period as the city of Duluth may grant, based on reasons determined sufficient by the city of Duluth, shall constitute a default, and the city of Duluth may either award the contract to the next lowest responsible bidder or re-advertise for bids, and may charge against the bidder the difference between the amount of the bid and the amount for which a contract for the work is subsequently executed, irrespective of whether the amount thus due exceeds the amount of the bid bond. If a more favorable bid is received by re-advertising, the defaulting bidder shall have no claim against the city of Duluth for a refund.

15) Wages and Salaries

a) Attention of bidders is particularly called to the requirements concerning the payment of not less than the prevailing wage and fringe benefit rates specified in the contract documents and the conditions of employment with respect to certain categories and classifications of employees.

b) The rates of pay set forth in prevailing wage schedule(s) are potentially the minimums to be paid during the life of the contract. Project funding sources, bid opening date, contract award date, and the contract start date may be factors resulting in a change of prevailing wage schedules. It is, therefore, the responsibility of bidders to inform themselves as to local labor conditions, such as the length of work day hours in conjunction with the project's funding sources, overtime compensation, health and welfare contributions, labor supply, and prospective changes or adjustments of rates. A project labor agreement will be included in all contracts exceeding $150,000.

16) Equal Employment Opportunity. Attention of bidders is particularly called to the requirement for ensuring that employees and applicants for employment are not discriminated against because of their race, color, religion, sex, or national origin. (See Supplementary General Conditions, Part II, Section 11).

17) Employment and Business. Attention of bidders is particularly called to the requirement that, to the greatest extent feasible, opportunities for training and employment made possible by this project shall be given to lower income residents of the city of Duluth. Additionally, if any work is subcontracted, efforts should be made to award subcontracts to concerns located in or owned in substantial part by persons residing in the city of Duluth.

18) Sales and Use Taxes. It is assumed that, in the preparation of his proposal, the bidder has taken into consideration his/her liability from any sales, use, or excise tax that might be assessed in the purchase of, storage, use, or consumption of any materials, services, or supplies for performance of the contract work. Any such tax paid by the contractor will be considered as his/her expense, for which no direct compensation will be made by the city to the contractor over and above the accepted bid.

19) Pre-Bid/Pre-Construction Meetings

a) Should a pre-bid meeting will be held, it will be conducted seven (7) days prior to the bid date (see Bid Form for time and place). All prime bidders are requested to attend. All bidders will be allowed to make inquiries regarding the contract documents. All formal decisions will be documented by addendum. Failure of any
prime bidders to attend this meeting could jeopardize the contract award.

b) Approximately seven (7) days after city council approval of contract award, the successful bidder is required to attend a pre-construction meeting. At this meeting, the successful bidder will present his/her construction schedule, cost breakdown, required submittals, etc.

a) The successful bidder on each city of Duluth construction project shall be required to execute a certificate substantially in the form herein provided.

b) Before executing any subcontract in excess of $2,500, the successful bidder shall require the subcontractor to execute a form similar in nature to the form herein provided.
Construction Type: Highway and Heavy

POWER EQUIPMENT OPERATOR CLASSIFICATIONS:

GROUP 2: Crane with over 135' Boom, excluding jib; Dragline & Hydraulic Backhoe with shovel-type controls, 3 cubic yards and over; Grader/Blade finishing earthwork and bituminous.

GROUP 3: Dragline & Hydraulic Backhoe with shovel-type controls up to 3 cubic yards; Loader 5 cu yd and over; Mechanic; Tandem Scraper; Truck Crane; Crawler Crane

GROUP 4: Bituminous Roller 8 tons & over; Crusher/ Crushing Plant; Drill Rig; Elevating Grader; Loader over 1 cu yd; Grader; Pump; Scraper up to 32 cu yd; Farm Tractor with Backhoe attachment; Skid Steer Loader over 1 cu yd with Backhoe attachment; Bulldozer over 50 hp.

GROUP 5: Bituminous Roller under 8 tons; Bituminous Rubber Tire Roller; Loader up to 1 cu yd; Bulldozer 50 hp or less.

GROUP 6: Oiler; Self-Propelled Vibrating Packer 35 hp and over.

CRANE OVER 135' BOOM, EXCLUDING JIB - $ .25 PREMIUM;
CRANE OVER 200' BOOM, EXCLUDING JIB - $ .50 PREMIUM
UNDERGROUND WORK:
UNNELS, SHAFTS, ETC. - $ .25 PREMIUM
UNDER AIR PRESSURE - $ .50 PREMIUM

HAZARDOUS WASTE PROJECTS (PPE Required):
LEVEL A - $1.25 PREMIUM
LEVEL B - $ .90 PREMIUM
LEVEL C - $ .60 PREMIUM

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "Identifiers" that indicate whether the particular rate is union or non-union.

Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local
union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rate.

Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---------------------------------------------

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

END OF GENERAL DECISION
State of Minnesota

Region 1 -- minimum truck rental rates

The operating costs were determined by survey on a statewide basis. The operating cost for "four or more axle units, straight body trucks" is determined to be $51.58 an hour. The operating cost for "three axle units" is determined to be $37.35 an hour. The operating cost for "tractor only" is determined to be $41.43 an hour. The operating cost for "tractor trailers" is determined to be $52.89 an hour.

Adding the prevailing wage for drivers of these four types of trucks from each of the state's 10 highway and heavy construction areas to the operating costs, the minimum hourly truck rental rate for the four types of trucks in each area is certified to be as follows.

City of Duluth
Indemnification & Insurance Requirements
(Updated February 16, 2011)
(Please Be Sure These Requirements Can Be Met Before Submitting Your Response)

INDEMNIFICATION CLAUSE

The Contractor will defend, indemnify and save the City harmless from all costs, charges, damages, and loss of any kind that may grow out of the matter covered by this contract. Said obligation does not include indemnification of the City for claims of liability arising out of the sole negligent or intentional acts or omissions of City but shall include but not be limited to the obligation to defend, indemnify and same harmless the City in all cases where claims of liability against the City arise out of acts or omissions of City which are derivative of the negligence or intentional acts or omissions of Contractor such as, and including but not limited to, the failure to supervise, the failure to warn, the failure to prevent such act or omission by Contractor and any other such source of liability. In addition, Contractor will comply with all local, state and federal laws, rules and regulations applicable to this contract and to the work to be done and things to be supplied hereunder.

INSURANCE

a. Contractor shall provide the following minimum amounts of insurance from insurance companies authorized to do business in the state of Minnesota, which insurance shall indemnify Contractor and City from all liability described in the paragraph above, subject to provisions of subparagraph below.

(1) Worker's compensation in accordance with the laws of the state of Minnesota.

(2) Public Liability and Automobile Liability Insurance with limits not less than $1,500,000 Single Limit, and twice the limits provided when a claim arises out of the release or threatened release of a hazardous substance; shall be in a company approved by the city of Duluth; and shall provide for the following: Liability for Premises, Operations, Completed Operations, Independent Contractors, and Contractual Liability.

(3) City of Duluth shall be named as Additional Insured under the Public Liability, Excess/Umbrella Liability* and Automobile Liability, or as an alternate, Contractor may provide Owners-Contractors Protective policy, naming itself and the City of Duluth. Contractor shall also provide evidence of Statutory Minnesota Worker’s Compensation Insurance. Contractor to provide Certificate of Insurance evidencing such coverage with 30-days notice of cancellation, non-renewal or material change provisions included. The City of Duluth does not represent or guarantee that these types or limits of coverage are adequate to protect the Contractor's interests and liabilities.

*An umbrella policy with a “following form” provision is acceptable if written verification is provided that the underlying policy names the City of Duluth as an additional insured.
(4) If a certificate of insurance is provided, the form of the certificate shall contain an unconditional requirement that the insurer notify the City without fail not less than 30 days prior to any cancellation, non-renewal or modification of the policy or coverages evidenced by said certificate and shall further provide that failure to give such notice to City will render any such change or changes in said policy or coverages ineffective as against the City.

(5) The use of an "Acord" form as a certificate of insurance shall be accompanied by two forms – 1) ISO Additional Insured Endorsement (CG-2010 pre-2004) and 2) Notice of Cancellation Endorsement (IL 7002) or equivalent, as approved by the Duluth City Attorney's Office.

b. The insurance required herein shall be maintained in full force and effect during the life of this Agreement and shall protect Contractor, its employees, agents and representatives from claims and damages including but not limited to personal injury and death and any act or failure to act by Contractor, its employees, agents and representatives in the negligent performance of work covered by this Agreement.

c. Certificates showing that Contractor is carrying the above described insurance in the specified amounts shall be furnished to the City prior to the execution of this Contract and a certificate showing continued maintenance of such insurance shall be on file with the City during the term of this Contract.

d. The City shall be named as an additional insured on each liability policy other than the workers’ compensation policies of the Contractor.

e. The certificates shall provide that the policies shall not be changed or canceled during the life of this Contract without at least 30 days advanced notice being given to the City.

f. Contractor shall be required to provide insurance meeting the requirements of this Paragraph unless Contractor successfully demonstrates to the satisfaction of the City Attorney, in the exercise of his or her discretion, that such insurance is not reasonably available in the market. If Contractor demonstrates to the satisfaction of the City Attorney that such insurance is not reasonably available, the City attorney may approve an alternative form of insurance which is reasonably available in the market which he or she deems to provide the highest level of insurance protection to the City which is reasonably available.

CHESTER PARK PHASE 1 BRIDGE AND PLACEMENT OF EXISTING SKI TRAIL BRIDGE

BID OPENING AT 2:00 P.M. ON THURSDAY NOVEMBER 1, 2012

Note: all bids must be written, signed and transmitted in a sealed envelope, plainly marked with the bid number, subject matter and opening date. The City of Duluth reserves the right to split award where there is a substantial savings to the City, waive informalities and to reject any and all bids. Bidder should state in proposal if bid price is based on acceptance of total order. Sales tax is not to be included in the unit price. Bidder to state freight charges if the proposal F.O.B. is shipping point, freight not allowed. Low bid will not be the only consideration for award of bid. All pages shall be signed or initialed by authorized bidder's representative as indicated at the bottom of the page(s) of the request for bid form.

RETURN BID IN DUPLICATE WITH DUPLICATE DESCRIPTIVE LITERATURE
FOR BID RESULTS, ENCLOSE A SELF-ADDRESSED, STAMPED ENVELOPE WITH BID

BID DEPOSIT REQUIREMENTS: 5% OF BID AMOUNT
Deposit shall mean cash, cashier's check or corporate surety bond payable to or in favor of the City of Duluth.

A PERFORMANCE BOND AND A PAYMENT BOND shall be required of the successful bidder, BOTH in the full amount of the bid.

INSURANCE CERTIFICATE required per attached requirements.

**GRAND TOTAL:**
Appendix A:

Contech – Bridge Installation and Lifting Instructions
APPENDIX C

BRIDGE INSTALLATION AND LIFTING INSTRUCTIONS

The purpose of this set of recommended instructions is to familiarize you with the standard procedures for installing and lifting Continental Bridges. These instructions are not all inclusive, thus each individual installation must be carefully planned by the erector.

1. Place all loose base plates on the bridge abutments. These loose base plates will be delivered along with the bridge.

2. Assure that the plates are at the correct elevation and that good bearing occurs between the abutment and the plate. If needed, shim the plate and grout tight with non-shrink grout under the entire base plate in order to assure full bearing and proper elevation.

3. Lightly grease the tops of all loose base plates except for those that have a teflon pad. The teflon pads are factory supplied and will be tack welded to the loose base plate and to the bottom of the bridge bearing plate.

4. Set the bridge onto the loose base plates. Lifting of the bridge shall be in accordance with the following:
APPENDIX C

A) Low Profile Bridges

— Lift only from the bottom chord. Lifting from the top chord is prohibited.
— Use a minimum of four lifting points. It is recommended to lift from points that are a distance approximately 1/4 to 1/3 of the span length from the end of the bridge. Lifting may also be done from the base plates that are welded to the end of the bridge. With some small bridges, only two lifting points may be used by balancing the bridge at its centerpoint. Lifting must still occur from the bottom chord.

— Lifting from the bottom chord shall be accomplished by wrapping a choker, chain, cable, or sling around the bottom chord, vertical, and floor beam as shown below. In some instances particularly bridges with a concrete, asphalt, or open bar grating deck, it may be necessary to wrap only around the vertical and diagonal. If this is the situation, care should be taken to stay as close to the bottom chord as possible.
APPENDIX C

B) High Profile Bridges

— The easiest way to lift this type of bridge is from the top chord.

— Use four lifting points. It is recommended to lift from the points that are a distance approximately to 1/3 of the span length from the end of the bridge.
APPENDIX C

— Lifting from the top chord shall be accomplished by wrapping a choker chain, cable, or sling around the top chord at the intersection of the vertical, strut and brace diagonals. This is illustrated below.

CABLE CHAIN, CHECKER OR SLING

RECOMMENDED FOR HIGH PROFILE

C) H-Section Bridges

— Lift only from the floor beam. Lifting from the top chord is prohibited.

— Use a minimum of four lifting points. It is recommended to lift from points that are at distances approximately 1/4 to 1/3 of the span length from the end of the bridge. Lifting may also be done from the base plates that are welded to the end of the bridge. With some small bridges, only two different points may be used by balancing the bridge at its centerpoint. Lifting must still occur from the floor beam.
APPENDIX C

Lifting from the floor beam shall be accomplished by wrapping a choker, chain, cable, or sling around the floor beam and vertical as shown below.

---

5. When installing painted bridges, cautions should be used to prevent damage to the painted surface. It is recommended that padding be used to protect the paint. It is the contractor/installer/owner's responsibility to touch up all marred areas that have occurred during shipping and installation. A quantity of touch-up paint will be provided by Continental and shipped along with the bridge.

6. After placing the bridge onto the base plates, adjust the bridge position such that equal space is provided at each end of the bridge, or as shown on the shop drawings.

7. Bolt bridge to anchor bolts. Use one washer and two nuts for each anchor bolt. One end of the bridge shall be designated the fixed end and shall have both nuts installed tight. The opposite end, or the end with teflon, is the expansion end and shall have the first nut installed finger tight only and the second nut installed tight.
