

Railroad Street Resurfacing Project

March 24th Public Meeting Presentation

Building a Better World for All of Us[®]

Presentation Outline

- Need for this Project
- Goals of this Project
- Planned Improvements
- Impacts During Construction
- Schedule

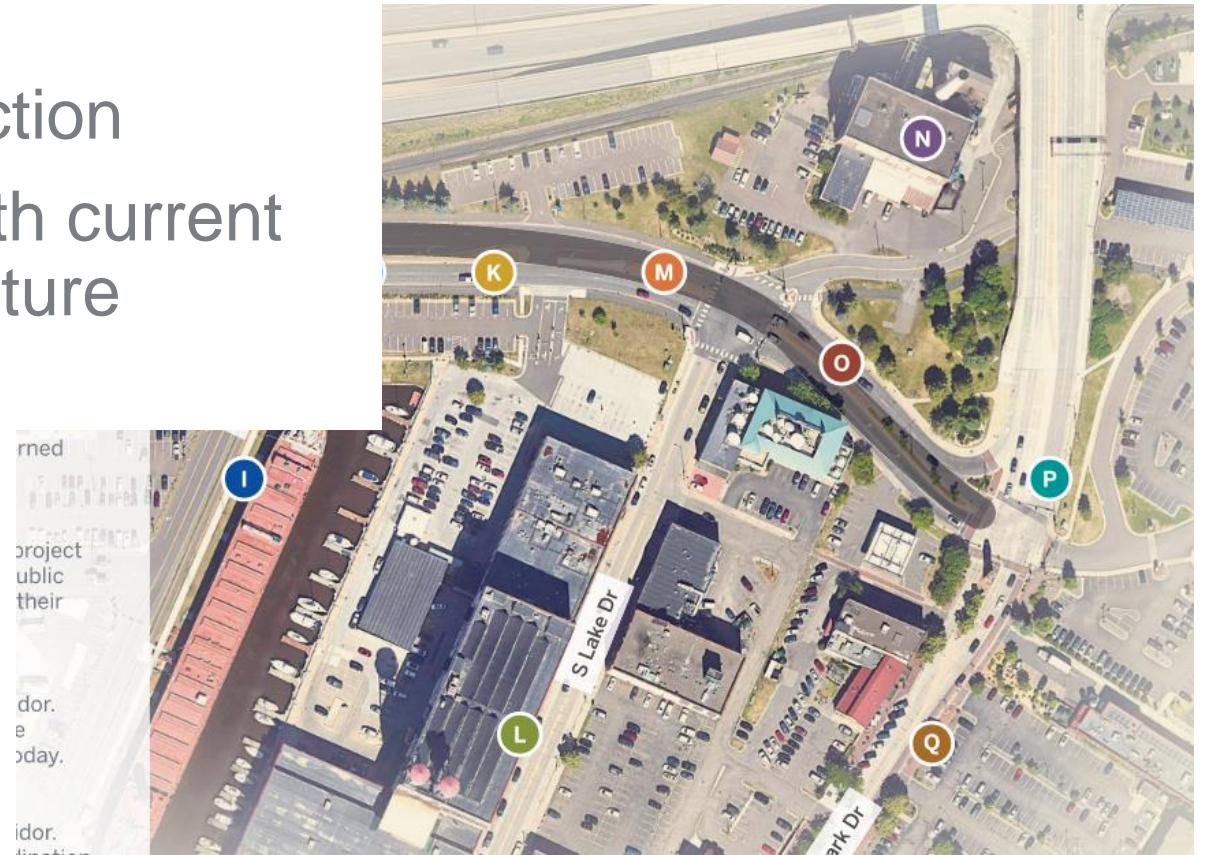

Need for this Project

- Distressed pavement
- Signals and lights at end of useful life
- Deficient pedestrian facilities
- Upcoming corridor planning

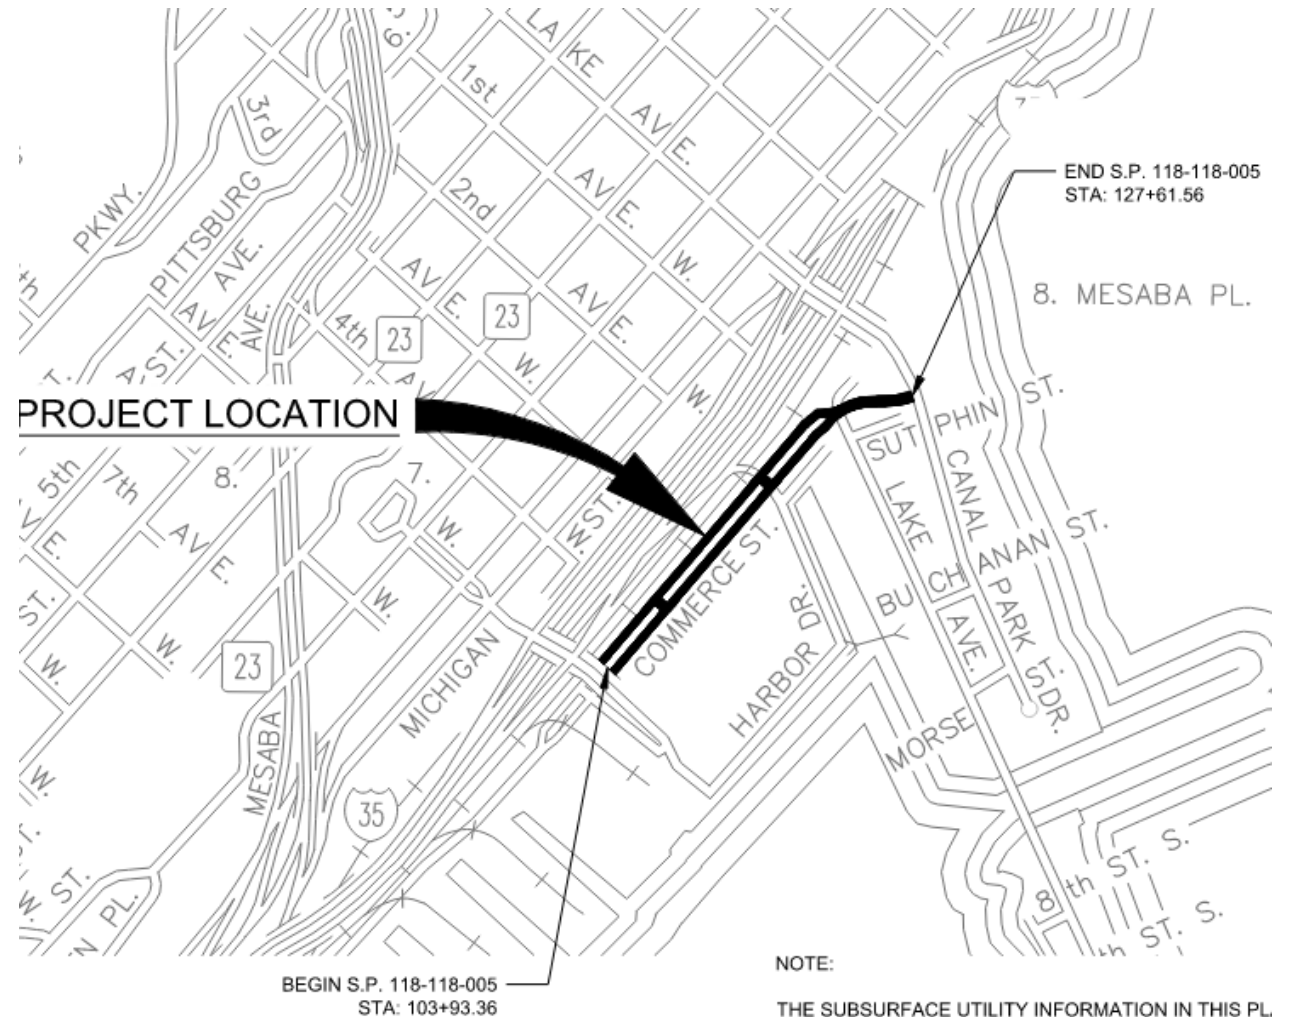

Goals of the Project

- Improve ride quality with pavement repairs
- Promote safety for all users
- Minimize impacts during construction
- Align scope and scale to align with current available funding and potential future planning outcomes

Planned Improvements

- Replace signal systems
- Replace lights with LED fixtures and new poles
- Reclaim existing pavement section, pave new finished pavement layer
- Pedestrian ramp improvements
- Trails, curbs, and medians will generally remain as-is

Project Schedule

- Expect that construction work may be phased based on the availability of materials, events, etc.

Thank you!
