Spec. #750-77C3

**CITY OF DULUTH  
MINIMUM SPECIFICATIONS FOR  
WASHED SAND**

Bids to meet or exceed specifications listed below.

General

All material shall weigh 2,750 lbs. per cubic yard (moisture 3%-6% less acceptable) and be weighed by a state-certified scale. The city reserves the right to award bids on a total bid basis or on an individual site basis.

After award of contract and before commencing work, the contractor must submit a corporate surety performance bond (city form) in an amount of their successful bid; or in lieu of such corporate surety bond, a certified check in an amount equal to the amount of his bid, drawn in favor of the city of Duluth on a bank authorized to transact business in the state of Minnesota. The bond must be approved by the city attorney prior to commencement of work.

Material to be of following gradation:

Sieve Size: ~~~~~	% Passing Sieve: ~~~~~
#3/8 (9.5 millimeters)	100%
#40 (425 micro meters)	0-50%
#200 (75 micrometers)	0-2%

A material stockpile of at least 1,000 cubic yards of specified sand must be available for city inspection by the date requested on bid request form.

Delivery schedule specified on bid request must be adhered to unless written notification to alter the schedule is received prior to commencement date.

Failure to comply with any provision of this specification may be cause for cancellation of any resulting purchase orders and award to the next highest bidder. Defaulting supplier will be responsible for all additional costs incurred by the city to procure said sand.
