PROPOSAL PACKAGE

Grading and Removal of Bridge No. 6201

City of Duluth, Minnesota
411 West 1st Street
Duluth, MN 55802

City Project # 1440

Bid # 15-0517

Opening Date: August 13, 2015
Time: 2:00 PM
Place (submit and open Bids): Room 100
CITY OF DULUTH
INVITATION TO BID (ENG)

PROJECT NAME/DESCRIPTION: Grading and Removal of Bridge No. 6201

PROJECT NUMBER: 1440

BID NUMBER: 15-0517

Sealed bids will be received by the City Purchasing Agent in and for the Corporation of the City of Duluth, Minnesota, at her office, Room 100 City Hall, Duluth, Minnesota, 55802, (218) 730-5340 until 2:00 PM local time on August 13, 2015 for the above named project. Immediately thereafter, bids will be publicly opened and read aloud.

NOTICE TO BIDDERS: 1) A Project Labor Agreement (PLA) will be required for any bid that is over or could virtually go over $150,000; and 2) Unless a Certificate of Exemption is provided, any out-of-state bidder receiving a bid award will have 8% retained from invoice payments on any contracts over $50,000. Submit a signed copy from the State of Minnesota when submitting Payment and Performance Bonds. This form may be found at the following web address: http://taxes.state.mn.us/Forms_and_Instructions/sde.pdf

SCOPE OF WORK: Project consists of the removal of existing Bridge No. 6201 (former DWP Railroad Bridge) and related grading and trail reconstruction to maintain trail connectivity on the old DWP rail bed alignment.

Questions pertaining to this project should be directed to: Joe Litman at LHB, 218-279-2455.

Each bidder must review the 2015 Edition of the City of Duluth Public Works & Utilities Department/Engineering Division “Construction Standards” available on the city website (www.duluthmn.gov) as these Specifications are incorporated by reference and are deemed to be a part hereof this project as if fully incorporated and set forth herein.

Plans and specifications may be secured from the City Engineering office, Room 211 City Hall, 411 West 1st St., Duluth, MN 55802, upon payment of a check, draft or money order in the amount of $15.00 made payable to the City of Duluth. (This payment will not be refunded.) Plans may be obtained at the City of Duluth website, http://www.duluthmn.gov/purchasing/bids-requestfor-proposals/, free of charge.

Plans and specifications are on file for inspection at the City Engineering office, Duluth Builders Exchange, F.W. Dodge Plan Room, and Minneapolis Builders Exchange.

A certified check or bank draft, payable to the order of the City of Duluth, negotiable U.S. Government Bonds (at par value), or a satisfactory bid bond executed by the bidder and acceptable surely, in an amount equal to five per cent (5%) of the total bid, shall be submitted with each bid.

Attention is called to the fact that not less than the minimum salaries and prevailing wages as set forth in the contract documents must be paid on this project. The contractor must take affirmative action to ensure that the employees and applicants for employment are not discriminated against because of their race, color, creed, sex or national origin, and must meet the affirmative action goals. Contractors are encouraged to subcontract with Disadvantaged Business Enterprises, when possible.

Contractor will comply with all applicable Equal Employment Opportunity laws and regulations.

The City of Duluth is an Equal Opportunity employer.

SP-1  NOTICE TO ALL BIDDERS
The 2015 Edition of the City of Duluth Public Works & Utilities Department/Engineering Division “Construction Standards” book and any addendums or supplements is incorporated by reference and is deemed to be a part hereof as if fully incorporated and set forth herein. The ‘Construction Standards’ is available on the City website at: http://www.duluthmn.gov/engineering/standard-construction-specifications/.

SP-2  SCOPE OF WORK
Project consists of the removal of existing Bridge No. 6201 (former DWP Railroad Bridge) and related grading and trail reconstruction to maintain trail connectivity on the old DWP rail bed alignment.

SP-3  CONTACT INFORMATION
Questions regarding this project should be directed to: Joe Litman, 218-279-2455.

SP-4  RESPONSIBLE CONTRACTOR VERIFICATION AND CERTIFICATION OF COMPLIANCE
A reminder to potential bidders that the Responsible Contractor Verification and Certification of Compliance is required by Minnesota Statute to be submitted with your Bid Proposal. Refer to sections 5-14 and 1801 of the City’s “Construction Standards” and the bid documents.

SP-5  (1404) MAINTENANCE OF TRAFFIC CONTROL AND (2563) TRAFFIC CONTROL
The following is added to the provisions of MnDOT 1404 and 2563:

The Contractor will only be permitted to close Skyline Parkway through the project site between the hours of 8am and 4pm and will only be permitted to do so for a maximum of 3 days. At all other times the roadway shall be maintained open to through traffic. Interim (short term) traffic control as required to facilitate construction operations shall be considered to be included for payment under the lump sum traffic control item.

Unless otherwise indicated, access to businesses and residences shall be maintained at all times. Maintenance of the roadway, drives and entrances shall be considered incidental.

No separate measurement or payment shall be made for any of the various elements comprising traffic control on the project but all such work shall be considered included for payment under the lump sum traffic control item.

SP-6  (1504) COORDINATION OF CONTRACT DOCUMENTS
The first paragraph of MN/DOT 1504 is deleted and replaced with the following:
A requirement appearing in one of the Contract documents is as binding as though the requirement appears in all. If discrepancies exist between the Contract documents, the following order of precedence applies:

(1) Addenda,
(2) Special Provisions,
(3) Project-Specific Plan Sheets,
(4) City of Duluth Standard Construction Details,
(5) City of Duluth Standard Construction Specifications,
(6) MN/DOT Supplemental Specifications,
(7) MN/DOT Standard Plan Sheets and Standard Plates,
(8) MN/DOT Standard Specifications.

SP-7 (1505) COOPERATION BY CONTRACTORS

No other known contractors or utility owners are performing work within the Construction limits.

SP-8 (1507) UTILITY PROPERTY AND SERVICE

Contractor shall perform construction operations near utility properties in accordance with the provisions of MnDOT 1507, except as modified below:

Add the following to MnDOT 1507.2: (3) The Contractor shall acquire a Positive Response confirmation from MnDOT for all proposed excavations when the Gopher State One Call has indicated that proposed excavations may affect MnDOT utilities. The Contractor may call MnDOT Electrical Services Section (ESS) Dispatch Locating to confirm the status of MnDOT owned Utility infrastructure. Contractor can contact MnDOT Electrical Services Section (ESS) Dispatch Locating at (651) 366-5750 or (651) 366-5751. The Contractor shall be responsible for all damage to MnDOT owned Utility infrastructure if the Contractor did not acquire a Positive Response confirmation from MnDOT.

Any work performed by the Contractor that does not comply with MnDOT 1507.2 may be considered Unauthorized Work in accordance with MnDOT 1512.2.

All utilities related to this Project are classified as "Level D," unless the Plans specifically state otherwise. This utility quality level was determined according to the guidelines of CI/ASCE 38-02, entitled "Standard Guidelines for the Collection and Depiction of Existing Subsurface Utility Data."

The bidder agrees that it shall use the Plan to identify the location of MnDOT storm water drainage facilities in order to meet the requirements of Minnesota Statutes Ch.
216D and Minnesota Rules 7560.0250 which apply to MnDOT storm water drainage facilities

SP-9  (1508) CONSTRUCTION STAKES, LINES AND GRADES

The provisions of Mn/DOT 1508 are hereby modified and supplemented as follows:

The following is added to the first paragraph of Mn/DOT 1508:

The Engineer will assist the Contractor in the identification of the Project Control Points as listed in the Plan. The Contractor shall be responsible for providing all surveying, staking and layout as required to properly construct the work. Contractor surveying shall include, but not be limited to, all staking and layout required to establish clearing limits, subcut and finish grade elevations and slope tie in points in accordance with the Plans.

All labor, equipment and material required to provide Contractor survey shall be considered Incidental.

SP-10  (1806) DETERMINATION AND EXTENSION OF CONTRACT TIME

The Contract Time will be determined in accordance with the provisions of MN/DOT 1806 and the following:

1. Construction operations shall be started on or before September 14, 2015 or within ten (10) calendar days after the date of Notice to Proceed, whichever is later.

2. Substantial Completion. All work under this Contract shall be substantially complete on or before October 2, 2015. For this project, Substantial Completion shall be deemed to include ALL work in the Contract except final turf establishment.

3. Final Completion. ALL work required under this Contract shall be complete on or before June 20, 2016.

4. The third exemption listed under the second paragraph of the provisions of MN/DOT 1806.3 is modified to the extent that the phrase “(3) During the inclusive period from November 15 through April 15, except as specified in 1806.1...” is deleted.

5. No work which will restrict or interfere with traffic shall be performed between 12:00 noon on the day preceding and 6:30 a.m. on the day following any consecutive combination of a Saturday, Sunday, and legal holiday without written permission from the Engineer.
SPECIAL PROVISIONS
City Job Number: 1440
Grading and Removal of Bridge 6201
July 22, 2015

(A) If the Contractor chooses not to work at all on the day preceding the holiday period, no working day charges will be assessed.

(B) If the Contractor chooses to work prior to 12:00 noon on the day preceding the holiday period or if the Contractor obtains written permission to work after 12:00 noon on the day preceding the holiday period, working day charges will be assessed only for the actual hours worked.

6. When all, or a portion, of the Contract Time is specified as a calendar completion date, the time is presumed to have been determined by considering the Proposal quantities, normal weather for the locality and season of the year, and the necessity of having the work completed by the specified date. The time may be extended by the Engineer only if the delay is considered "Excusable" in accordance with MN/DOT 1806.2 Types of Delays.

SP-11 (1807) FAILURE TO COMPLETE WORK ON TIME
The provisions of MN/DOT 1807 shall apply in full to both the Substantial Completion Date and the Final Completion Date.

SP-12 (2442) REMOVAL OF EXISTING BRIDGES
The provisions of Mn/DOT Specification 2442 shall apply except as supplemented herein.

Disposal of materials by the Contractor shall be in accordance with 1506, 2104.3C, 2442, Mn/DOT "Asbestos and Regulated Waste Manual for Structure Demolition or Relocations for Construction Projects" and the following: The Contractor shall furnish written information to the Engineer as to disposal of steel bridge beams and other steel bridge components coated with lead paint. This information shall include method of stabilization and disposal; name, address, and telephone number of disposal site; certification that Contractor has notified disposal site of presence of lead paint; acknowledgment by Contractor of OSHA requirements relating to lead; and certification that Contractor is familiar with proper handling and disposal of materials with lead-based paint systems. All lead paint that has been identified as peeling must be stabilized by coating with a paint or similar material that will prevent the peeling paint from flaking during demolition, or must be scraped. This must all be completed as per the Mn/DOT "Asbestos and Regulated Waste Manual for Structure Demolition or Relocations for Construction Projects". The form supplied in this special provision shall consist of the signature of the authorized Superintendent verifying that the information is correct.

As per the "Asbestos and Regulated Waste" report prepared for this project (Appendix A) it has been determined that this bridge does not contain asbestos.
NOTIFICATION FORM ON DISPOSAL OF BRIDGE STEEL
The Contractor is required to provide certain information on disposal of bridge steel which has been painted with lead-based paint. By signing this document, the Contractor certifies that information supplied by the Contractor is correct and that the Contractor is familiar with proper handling and disposal of materials with lead-based paint. This information must be furnished to the Project Engineer a minimum of 30 days prior to removal of the bridge steel from the project site. Any change in method or location of disposal would require resubmittal and a 30 day notice.

Appendix III: Licenses
SECTION 1

Site Specifics and Certification

Project Overview: This report presents the results of the Asbestos and Regulated Waste Assessment (Assessment) conducted on May 5, 2015 for asbestos-containing materials (ACM), and other regulated material/special waste concerns at the existing DWP Bridge located over Skyline Parkway near the intersection with Becks Road in Duluth, Minnesota (Site). This inspection was conducted in accordance with Minnesota Rules 4620.3460, and in general accordance with Minnesota Department of Transportation’s (MnDOT’s) Asbestos and Regulated Waste Manual for Structure Demolition or Relocations for Construction Projects, and the Braun Intertec Proposal QT020379 dated May 6, 2015.

It is our understanding that the existing DWP Bridge located over Skyline Parkway near the intersection with Becks Road is slated for demolition.

To document the asbestos and regulated waste assessment work, Braun Intertec took photographs of the bridge including:

- Bridge plate number, if available
- A general distance photograph
- The underside and top of the bridge
- Areas of specific interest
- ACM sample locations
- Regulated waste locations, if identified

Copies of the photographs are included in Appendix II.

Bridge #: NA
Bridge Dimensions: Structure Length = approximately 80 feet, Deck Width = approximately 10 feet.
Deck Material: Steel Beam and Timber
Wear Surface Type: Gravel and Timber
Year Built: NA

State Project Number: N/A
Parcel: N/A
Location: DWP Bridge located over Skyline Parkway near the intersection with Becks Road in Duluth, Minnesota.
Number and type of Structure/s: One Bridge over Skyline Parkway
Current Owner: City of Duluth
Expected Disposition of the Structure: Demolition
Licensure: Minnesota Department of Health (MDH) certified asbestos inspectors conducted the inspection (Appendix III).

Certification: The undersigned certifies that this asbestos inspection was performed in compliance with MN Rules 4620.3460.

SECTION 2

Bridge ID: DWP Bridge located over Skyline Parkway
Summary of Actions Required For This Demolition

Review Bridge Drawings: The as-built drawings were not available for review.

Asbestos Summary: No ACM was identified on the DWP Bridge located over Skyline Parkway (See Section 3 for the detailed sample locations, amounts, conditions and summary inventory of all suspect materials).

Regulated Waste Summary: The following regulated waste was found at the Site. This waste is required to be removed before the demolition. (See Section 3 for the detailed inventory of all regulated wastes).

Lead Gaskets and Sheeting: No lead gaskets or sheeting were noted during the inspection.

Lead Based Paint: Approximately two hundred (200) square feet distributed of peeling and flaking lead-based paint was detected on the structure’s steel beams. The analytical laboratory lead-paint test result on the black painted steel support surface was 13% by weight Sample Pb-1 (see analytical report in Appendix I). According to the U.S. Environmental Protection Agency (EPA), Minnesota Pollution Control Agency (MPCA), and the Minnesota Department of Health (MDH), any result of 0.5 % weight or greater is considered to be “lead-based paint.”*

Mercury: No bridge lighting or other potentially mercury-containing equipment were noted during the inspection.

PCBs: No bridge lighting or other potentially PCB-containing equipment were noted during the inspection.

Treated Wood: Approximately one-thousand five hundred (1,500) square feet of treated timber was noted on the decking, piers, abutments, and wing-walls of the structure. (See photographs in Appendix II).**

Solid Waste: No solid waste was noted on or around the bridge during the inspection.

*The lead-based paint detected on the steel beams was found to be peeling or flaking and must be stabilized with an elastomer encapsulant or removed and disposed of as lead waste in
accordance with state and federal regulations prior to disturbance from bridge renovation/demolition and there is a possibility of the lead paint contaminating underlying soils and water. MnDOT's Office of Environmental Services has a guidance document titled "Removing Paint (Dry Abrasive Blasting) from Bridge Steel Structures," that outlines required practices for removal of lead-based paint in accordance with Air Quality and Waste Management Rules.

**The treated wood indicated above is required to be removed and disposed of prior to bridge demolition.**

All of the regulated waste materials listed shall be managed and disposed of in accordance with MnDOT's specifications.
SECTION 3

Bridge ID: DWP Bridge located over Skyline Parkway
Summary of all Asbestos and Regulated Wastes

Materials identified as asbestos-containing and regulated materials/wastes must be removed prior to demolition.

No ACM was found on the DWP Bridge located over Skyline Parkway.

Parcel Number: N/A
Structure Name: DWP Bridge
Address of Structure: located over Skyline Parkway
Inspection Date: May 5, 2015

EML, maintains liability limited to cost of analysis. This report relates only to the samples reported and may not be reproduced, except in full, without written approval by EML. EML bears no responsibility for sample collection activities or analysis method limitations. Interpretation and use of test results are the responsibility of the client. This report must not be used by the client to claim product certification, approval, or endorsement by NVLAP, NIST, or any agency of the federal government. Non-visible organically bound materials present a problem matrix and therefore EML recommends graminetic reduction prior to analysis. Samples received in good condition unless otherwise noted. Estimated accuracy, precision and uncertainty data available upon request. Unless requested by the client, building materials manufactured with multiple layers (i.e. lath, wallboard, etc.) are reported as a single sample. Reporting limit is 1%.

Samples analyzed by EML Analytical, Inc. Minneapolis, Mn NVLAP Lab Code 200319-0.

INSTRUCTIONS TO BIDDERS

1) **Use of Separate Bid Forms.** These contract documents include a complete set of bidding and contract forms which are for the convenience of bidders and are not to be detached from the contract document, completed, or executed. Separate copies of bid forms are furnished for that purpose.

2) **Interpretations or Addenda.** No oral interpretation will be made to any bidder as to the meaning of the contract documents or any part thereof. Every request for such an interpretation shall be made in writing to the city of Duluth. Any inquiry received seven or more days prior to the date fixed for opening of bids will be given consideration. Every interpretation made to a bidder will be in the form of an addendum to the contract documents, and when issued, will be on file in the office of the city engineer at least five days before bids are opened. In addition, all addenda will be mailed to each person holding contract documents, but it shall be the bidder's responsibility to make inquiry as to the addenda issued. All such addenda shall become part of the contract and all bidders shall be bound by such addenda, whether or not received by the bidders.

3) **Inspection of Site.** Each bidder should visit the site of the proposed work and fully acquaint himself with the existing conditions there relating to construction and labor, and should fully inform himself as to the facilities involved, the difficulties, and the restrictions attending the performance of the contract. The bidder should thoroughly examine and familiarize himself with the drawings, technical specifications, and all other contract documents. The contractor, by the execution of the contract, shall in no way be relieved of any obligation under it due to his failure to receive or examine any form or legal instrument or to visit the site and acquaint himself with the conditions there existing; the city of Duluth will be justified in rejecting any claim based on facts regarding which he should have been on notice as a result thereof.

4) **Alternative Bids.** No alternative bids or bid items will be considered unless alternative bids are specifically requested by the technical specifications.

5) **Bids.**
   
a) All bids must be submitted on forms supplied by the city engineer and shall be subject to all requirements of the contract documents, including the drawings, and these Instructions to Bidders. All bids must be regular in every respect; no interlineations, excisions, or special conditions shall be made or included in the bid form by the bidder.

b) Bid documents, including the bid and the bid guaranty, shall be enclosed in an envelope which shall be sealed and clearly labeled with the project number, if any, name of bidder, and date and time of bid opening, in order to guard against premature opening of the bid. If the proposal is mailed, this envelope shall be placed in another envelope which shall be sealed and labeled with project number, if any, name of bidder, and date and time of bid opening -- and addressed to city of Duluth purchasing manager, room 100 City Hall, Duluth, Minnesota 55802.

c) The city of Duluth may consider as irregular any bid on which there is an alteration of or departure from the bid form hereto attached and, at its option, may reject the same.

d) If the project is awarded, it will be awarded by the city of Duluth to the lowest responsible bidder assuming that the bids are within funds available based on the lowest base bid and or in combination with selected alternates (if any). The alternates will be accepted in descending order. By the award of the contract, it is assumed that the work will be completed within the time-frame as specified within the contract documents.

e) Each bidder shall include in his bid the following information:
   - **Principals** -- names, home addresses including city, state, and zip code
   - **Mechanical & Electrical Subcontractors** -- names of firms that will do the mechanical and electrical work and the amounts of the mechanical and electrical sub-bids, if applicable and when (where indicated on Bid Proposal form).

6) **Bid Guaranty.**
   
a) The bid must be accompanied by a bid guaranty which shall not be less than five percent (5%) of the amount of the bid. At the option of the bidder, the guaranty may be a certified check, bank draft, negotiable U.S. Government bond (at par value), or a bid bond. No bid will be considered unless it is accompanied by the required guaranty. Certified check or bank draft must be made payable to the order of the city of Duluth, Minnesota. Cash deposits will not be accepted. The bid guaranty shall insure the execution of the agreement and the furnishing of the surety bond or bonds by the successful bidder, all as required by the contract documents.
construction contract for this Project and may result in the termination of a contract awarded to a Bidder or subcontractor that makes a false statement.

A Bidder must also identify each subcontractor it intends to use on the Project. A Bidder must complete Attachment A-1 and submit it with the Responsible Contractor Verification and Certification of Compliance form, identifying each subcontractor it intends to use as of the time of bid submission. Include the project number specific to the bid on each form. The completed Certification Forms must be submitted with the Bid Proposal.

If the Bidder retains additional subcontractors after submitting its Responsible Contractor Verification and Certification of Compliance form, then the Bidder must submit Attachment A-2 within 14 days of retaining the additional subcontractor. Documents must be submitted to the Project Engineer. Include the project number specific to the bid on the form.

14) Award of Contract: Rejection of Bids

a) The contract will be awarded to the responsible bidder submitting the lowest bid complying with the conditions of the Invitation to Bid. The bidder, to whom the award is made, will be notified at the earliest possible date. The city of Duluth, however, reserves the right to reject any and all such bids and to waive any informality in bids received whenever such rejection or waiver is in its interest.

b) The city of Duluth reserves the right to consider as unqualified to do the work of general construction, any bidder who does not habitually perform with his own forces the major portions of the work involved in construction of the improvements embraced in the contract documents. A project labor agreement will be included in all contracts exceeding $150,000.

15) Execution of Agreement: Performance and Payment Bond

a) Subsequent to the award and within ten (10) days after the prescribed forms are presented for signature, the successful bidder shall execute and deliver to the city of Duluth an agreement in the form as furnished by the City, in such number of copies as the city of Duluth may require.

b) Having satisfied all conditions of award as set forth elsewhere in these documents, the successful bidder shall, within the period specified in paragraph "a" above, furnish:

1) A performance bond for the use and benefit of the city of Duluth to complete the contract according to its terms, and conditioned on saving the city of Duluth harmless from all costs and charges that may accrue on account of completing the specified work; and

2) A payment bond for the use and benefit of all persons furnishing labor and materials for the performance of the contract conditioned upon the payment, as they become due, of all just claims for labor and materials.

Both the performance bond and the payment bond shall be in a penal sum of not less than the amount of the contract awarded. Such bonds shall be in the same form as that included in the contract documents and shall bear the same date as, or a date subsequent to, that of the agreement. A current power of attorney for the person who signs for any surety company shall be attached to such bonds.

c) The failure of the successful bidder to execute such agreement to supply the required bond or bonds within ten (10) days after the prescribed forms are presented for signature, or within such extended period as the city of Duluth may grant, based on reasons determined sufficient by the city of Duluth, shall constitute a default, and the city of Duluth may either award the contract to the next lowest responsible bidder or re-advertise for bids, and may charge against the bidder the difference between the amount of the bid and the amount for which a contract for the work is subsequently executed, irrespective of whether the amount thus due exceeds the amount of the bid bond. If a more favorable bid is received by re-advertising, the defaulting bidder shall have no claim against the city of Duluth for a refund.

16) Wages and Salaries

a) Attention of bidders is particularly called to the requirements concerning the payment of not less than the prevailing wage and fringe benefit rates specified in the contract documents and the conditions of employment with respect to certain categories and classifications of employees.

b) The rates of pay set forth in prevailing wage schedule(s) are potentially the minimums to be paid during the life of the contract. Project funding sources, bid opening date, contract award date, and the contract start date may be factors resulting in a change of prevailing wage schedules. It is, therefore, the responsibility of bidders to inform themselves as to local labor conditions, such as the length of work day hours in conjunction with the
DATA FOR LABOR COST BIDDING

NOTE:
Wage Decisions are subject to change due to lock-in rules and revisions near the bid opening.

Project No.: 1440

Name: Grading and Removal of Bridge No. 6201

Bid Opening Date: August 13, 2015

This project is funded by:

City of Duluth

The base workweek may be:

Five 8-hour days OR four 10-hour days with OT after each
AND
OT after 40 hours per week

The project DOES NOT contain a project labor agreement (PLA).
Should a project contain a project labor agreement:
1) Union scale may not be reflected in the prevailing wage schedule(s)
2) Note Article II Section 10 for trucking labor costs

City of Duluth funding only:
Each certified payroll must indicate the base workweek on the accompanying MnDOT Statement of Compliance form and beside each employee’s name when his/her hours differ from the normal base workweek, if applicable.

OVERTIME REQUIREMENTS:
For projects funded by the City of Duluth: overtime must be paid on daily hours worked in excess of the base daily hours. Contractors (including sub-contractors) are not allowed to pay overtime solely on hours in excess of forty per week.

The overtime rate must be paid at NO LESS than the rate of pay as established in the project’s wage decision multiplied by one and one-half OR the base rate the employee is being paid if it is higher than the wage decision base rate.

HEAVY CONSTRUCTION PROJECTS

Note: Executive Order (EO) 13658 establishes an hourly minimum wage of $10.10 for 2015 that applies to all contracts subject to the Davis-Bacon Act for which the solicitation is issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least $10.10 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for Local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UNVC" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PIUM0198-005 07/01/2014. PIUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=================================================================================================

END OF GENERAL DECISION
General Decision Number: MN150121 01/02/2015 MN121

Superseded General Decision Number: MN20140121

State: Minnesota

Construction Type: Highway

Counties: Carlton, Cook, Itasca, Koochiching, Lake, Pine and St Louis Counties in Minnesota.

HIGHWAY CONSTRUCTION PROJECTS

Note: Executive Order (EO) 13658 establishes an hourly minimum wage of $10.10 for 2015 that applies to all contracts subject to the Davis-Bacon Act for which the solicitation is issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least $10.10 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. IA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007, in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

-----------------------------------------------------------------------

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour
City of Duluth
Indemnification & Insurance Requirements
(Updated February 16, 2011)

(Please Be Sure These Requirements Can Be Met before Submitting Your Response)

INDEMNIFICATION CLAUSE

The Contractor will defend, indemnify and save the City harmless from all costs, charges, damages, and loss of any kind that may grow out of the matter covered by this contract. Said obligation does not include indemnification of the City for claims of liability arising out of the sole negligent or intentional acts or omissions of City but shall include but not be limited to the obligation to defend, indemnify and same harmless the City in all cases where claims of liability against the City arise out of acts or omissions of City which are derivative of the negligence or intentional acts or omissions of Contractor such as, and including but not limited to, the failure to supervise, the failure to warn, the failure to prevent such act or omission by Contractor and any other such source of liability. In addition, Contractor will comply with all local, state and federal laws, rules and regulations applicable to this contract and to the work to be done and things to be supplied hereunder.

INSURANCE

a. Contractor shall provide the following minimum amounts of insurance from insurance companies authorized to do business in the state of Minnesota, which insurance shall indemnify Contractor and City from all liability described in the paragraph above, subject to provisions of subparagraph below.

(1) Worker’s compensation in accordance with the laws of the state of Minnesota.

(2) Public Liability and Automobile Liability Insurance with limits not less than $1,500,00 Single Limit, and twice the limits provided when a claim arises out of the release or threatened release of a hazardous substance; shall be in a company approved by the city of Duluth; and shall provide for the following: Liability for Premises, Operations, Completed Operations, Independent Contractors, and Contractual Liability.

(3) City of Duluth shall be named as Additional Insured under the Public Liability, Excess/Umbrella Liability* and Automobile Liability, or as an alternate, Contractor may provide Owners-Contractors Protective policy, naming itself and the City of Duluth. Contractor shall also provide evidence of Statutory Minnesota Worker’s Compensation Insurance. Contractor to provide Certificate of Insurance evidencing such coverage with 30-days notice of cancellation, non-renewal or material change provisions included. The City of Duluth does not represent or guarantee that these types or limits of coverage are adequate to protect the Contractor’s interests and liabilities.
PRE-2004 CG 2010

A. **Section II - Who Is an Insured** is amended to include as an insured the person or organization shown in the Schedule, but only with respect to liability arising out of your ongoing operations performed for that insured.

******************************************************************************

NOTICE OF CANCELLATIONS ENDORSEMENT IL-7002 (10-90)
All Coverage Parts included in this policy are subject to the following condition: If we cancel this policy for any reason other than non-payment of premium, we will mail advance notice to the person(s) or organization(s) as shown in the Schedule.
