Addendum # 3

Biomass Preliminary Design RFP for Duluth Steam

This addendum serves to notify all bidders of the following:

1. Does the facility have an accurate and complete set of existing layout and elevation drawings in AutoCAD format?
No.
2. Does the facility have an accurate and complete set of existing Piping and Instrumentation Diagrams in AutoCAD format?
No.
3. Does the facility have a 3D model showing the existing building, equipment, piping etc.?
No.
4. Who owns the intellectual property for the existing boilers and are they capable of modeling the boiler performance with proposed changes?
The boiler manufacture (Edge Moor) has been out of business for decades. Duluth Energy Systems has copies of original boiler drawings which show dimensions and original construction materials. A model would have to be created from scratch using these drawings and current operational data.

Please acknowledge receipt of this Addendum by initialing and dating Addendum #3 below the bid form on the invitation for bids.
