City of Duluth RFP No. 16-0228
Skyline Parkway Retaining Wall Restorations
City Project No. 1494

Addendum #1

Project Overview

There is not currently a monument at Bardon's Peak; installation of a monument will be required. Existing monuments at Oneota and Section 3 Turnout will require repairs to the entire monument, including restoration of the plaques.

Background

A 15-inch reinforced concrete culvert crosses under Skyline Parkway and is assumed to exit through the retaining wall at the Section 3 Turnout Overlook location. There are no City utilities in the project areas for Bardon's Peak or Oneota Overlooks. See attached map.

General Project Scope

2. Public Meetings

If held, the City would facilitate the public meeting; the Consultant would be responsible for presenting.
