Gausman & Moore	Lyssa Hattenbeyor	Not provided
City of Duluth – PFM	Alex Jackson	ajackson@duluthmn.gov

16-0499 Energy Efficiency Lighting Project – Bid Package 1

Q&A

1. Within the noted bid document it is noted that the city will provide fixtures. Has there been a bid for the fixtures noted in this project? If yes, what were the bid results?

We have not requested bids for lighting. That said, we have chosen the new fixtures; these fixtures will be purchased after a bid is accepted for the install and the control system is known.

2. Does the city have a preferred control system?

Yes, the Streets department is installing an Echelon system, we would prefer this, however we are open to discussing options.

3. Will this contract need a PLA?

This is unknown at this point, however, as referenced in the bid request anything over 150K will.

4. Parking ramp installation: Will work need to be done after ours?

This is unknown at this point, however it isn't our intent for that to be the case. We expect the selected company to work with PFM and Parking officials to work out an installation plan that achieves or task in a timely and cost effective manner while still providing the needed services to the city's residents and guests.

5. When can work start?

Work can start when the contracting paperwork is complete.

6. When will lights be ordered by the City?

Lights will be ordered as soon as we know what lighting control system will be used.
