Addendum 1
File # 18-0024

**Project: Pre-Insulated Pipe, Fittings, Valves and Accessories for Superior Street
Project – Phase 1 and 2**

This addendum serves to notify all bidders of the following changes to the solicitation documents:

1. The bid form in Bid Express Solicitation 18-0024 has been revised as indicated in A2 and A3 below.
2. Questions must be submitted by 4:30 central time on Monday, November 27, 2017.

3. The following questions were asked and answered:

Q1: Since all materials will not be manufactured and shipped at the same time for these two phases, is there any accountability for fluctuating freight costs, raw material steel prices, etc. for the second delivery over a year out? Have you calculated on your end the variances? Or should we adjust our second quote to reflect this possibility of projected costs not actual today's pricing? In other words, are the prices we will be providing to be applied cut and dry for the 2019 deliveries "no exceptions?"

A1: The prices submitted in the bid will be the prices used for purchase. No escalation or variation will be allowed.

Q2: There do not appear to be any joint kits identified for the twin pipe materials that were purchased. Is this correct?

A2: This was an oversight. Joint kits will be required for the twin pipe materials. These bid items and quantities have been added to the revised bid form.

Q3: Is it possible that the joint kits for the 11" and 14" OD piping were also missed on the bid form? There don't appear to be any joints for these pipes, valves, or elbows either?

A3: No, these joint kits are included in the bid items. They are listed by the inside diameter of the piping. The bid item descriptions have been revised to show inside and outside dimensions of the piping.

Please acknowledge receipt of this Addendum by checking the appropriate box in the Bid Solicitation at www.bidexpress.com
