QUESTIONS AND ANSWERS FROM PRE-BID MEETING (Held January 18th, 2018)

Q1: Is the general contractor responsible for the drain tile for the playground?

A1: No, the drain tile will be installed by others. The general contractor will be responsible for installing the new catch basin to the west of the playground and will need to coordinate drain tile connection to the new catch basin with the playground installer.

Q2: Where does the catch basin in the playground connect to?

A2: The existing catch basin in the playground connects to existing storm sewer (and runs south). See C0.02 Topographic Survey for existing storm sewer lines.

Q3: With the bid express format, do people have to show up in person for the results?

A3: No, attendance is not required for the bid opening as it is an automatic online process now.
