What looks like a simple playground...

What is Inclusive Play?

An *Inclusive Playground* is an environment that allows everyone, regardless of ability, the opportunity to play. This involves creating a rich sensory environment that allows the child to develop physically, socially, and emotionally. Inclusive playgrounds offer the opportunity for the entire community to play, together.

... is actually filled with a lot of detailed design to make sure it is inclusive.

**Playground
Equipment
Overview**

ZipKrooz Assisted
5-12 Years (Inclusive)

SmartPlay Motion
2-5 Years (16 Play Events
(Accessible)

OmniSpin Spinner
2-12 Years (Inclusive)

Chill Spinners
5-12 Years (Inclusive)

SwayFun

OmniSpin[®] Spinner

Sensory Systems Engaged	Motor Skills	Cognitive Skills	Social Skills
Vestibular+ Proprioception	Balance, Core Body Strength, Lower Body Strength,	Problem Solving	Cooperation Social Skill Development Imaginative Play

The OmniSpin Spinner is a great place for a group of children of all abilities to explore movement together. The OmniSpin Spinner is an updated version of the traditional merry-go-round. It is designed so that children using wheeled mobility devices can transfer or be transferred out of their devices and enjoy the rotation that come from a merry-go-round experience. This element encourages social play by all children as riders and pushers cooperate to make this a fun vestibular experience for every child. Those pushing their friends in the spinner get to work on motor planning and coordination through the proprioceptive receptors in their muscles and joints.

Oodle® Swing

Sensory Systems Engaged	Motor Skills	Cognitive Skills	Social Skills
Vestibular+ Proprioception Tactile Visual	Balance, Coordination, Core, Upper & Lower Body Strength, Motor Planning	Problem Solving	Cooperation Social Skill Development Imaginative Play

The Oodle Swing is designed to encourage social play while swinging. A child can easily transfer from a mobility device into the Oodle Swing and its shape allows children to sit or lay together in different ways while providing support.

The Oodle Swing's larger size allows adults and children to swing together. Cooperative play is needed to make the swing go, encouraging children of all abilities to work together to swing.
