## Duluth Police Department makes Crime Map Dashboard Mobile Friendly

In 2024 the Duluth Police Department launched an online crime mapping dashboard that displays various types of crime incidents that were reported in our community for the past three years. Today, we're proud to continue our commitment to building trust through transparency with our community by making this dashboard mobile friendly.

"Now, individuals are able to review the data on any device from anywhere, making the experience of this dashboard more user-friendly," said Chief Mike Ceynowa.

When using the mobile version of the map, applying a neighborhood filter will also display nearby areas, providing a broader perspective of crime in the surrounding area.

New cases will be added to the crime map weekly, and all data will be refreshed quarterly to capture any updates to case offenses. The crime map dashboard is available online at <https://duluthmn.gov/police/public-data/crime-map-dashboard/>.
