SUBJECT: New Gas Services Applications Closed

BY: Amy Norris, Public Information Coordinator

New Gas Services Applications Closed

The City of Duluth would like to inform residents and businesses, due to an overwhelming demand, the City will no longer accept applications for installation of new gas services to existing homes and businesses for the year 2013. The City had budgeted \$700,000 for gas work and has already received enough applications to spend the entire budget. Applications for gas service to newly constructed buildings will still be accepted. Homeowners may install gas service at their own cost if they chose to do so or wait until 2014. Applications for 2014 will continue to be accepted this year. For more information call Eric Schaffer, City of Duluth at 218-730-5072.
