SUBJECT: City of Duluth soliciting feedback from the public on changes to Skyline Parkway

BY: Kelli Latuska, Public Information Officer

City of Duluth soliciting feedback from the public on changes to Skyline Parkway

[DULUTH, MN] The City of Duluth is announcing a user feedback survey for those wishing to provide input regarding the demonstration project on W Skyline Parkway near Enger Park. [This short, anonymous survey](#) will assist engineering staff in evaluating the initial success of the demonstration project, allowing staff to get a sampling of the community's initial reactions as they've had a chance to drive, walk, or bike the project. Later in the fall, a more detailed and in-depth experiential feedback survey will open to the public.

These public feedback tools will provide traffic engineers with short-term data to evaluate the project's effectiveness, alongside the more long-term data they collect from the demonstration project site, which will inform them on any modifications or improvements the project may require.
